It is the intent and purpose of this order specification to provide a precise color representation of your sign (shape and color). However, digital media and printed colors will vary from actual print (font and color). Existing graphics surfaces will have a perceptible difference in shade and finish than your sign finish. Providing a sample of the paint you want to finish or a Maruman paint color formula will minimize this miscommunication.

It is the intent and purpose of the color rendering to provide a basic color representation of your sign finish and color. However, digital media and printed colors will vary from actual panel finish and color. Existing panels in locations will have a perceptible difference in finish and color from your sign finish. Providing a sample of the panel you wish to match or a Mattress panel color for matching the difference.
