Re: Inspection of residence 325 Carey St.
for zoning violation.

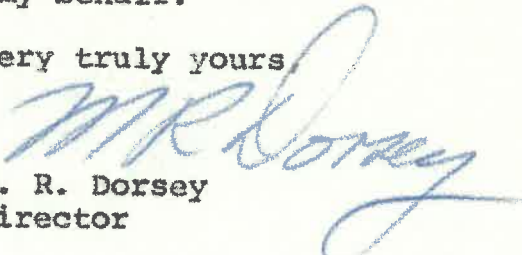

Dear Mrs. Enck:

The subject residence was inspected on September 10, 1974 by Mr. Terranova, City Building Inspector. The following facts were evident:

1. The subject property did show evidence within the garage that the owner was receiving damaged furniture for the purpose of re-upholstering.
2. There is no evidence that a commercial establishment has been set up.
3. Mrs. Duval informed Mr. Terranova that Mr. Duval was only repairing furniture on a part time basis as a hobby.
4. The subject residence is located in a "GB" General Business Zoning, permitting general business activity.
5. Therefore, there is no zoning violation being committed.

If there are any further questions in regard to this matter, please feel free to contact Mr. Terranova, who is handling this investigation on my behalf.

Very truly yours

M. R. Dorsey
Director
