## **Please provide the following if this is a new electrical service or a re-location of an existing service;**

A dimensioned building site plan showing lot size, building setbacks from property lines, dimensioned building footprint, location of new electric service meter and appurtenances, location of all existing and proposed underground utilities (septic tank, leech field, gas lines, electric lines, telephone lines, cable TV lines and all other).

## **Please check the applicable areas below;**

1. Size of service desired: 100 amp \_\_\_\_\_, 200 amp , 400 amp \_\_\_\_\_, other \_\_\_\_\_
2. Type of service desired: Single phase , Three phase \_\_\_\_\_.
3. Installation type desired: Underground , Overhead \_\_\_\_\_.

Once you have completed this form and provided the requested information, submit it to the City Building Department for processing. Once processed, we will print a "no-fee" permit and an electric meter base release form. You will receive a copy of these documents along with a copy of the City of Napoleon Electric Service Entrance Minimum Specifications. The City will provide a new electric meter base. To obtain one you will need to present the meter base release form to the City Electrical Department @ 1775 Industrial Drive Napoleon.

**It is very important to understand the installation specifications and install the electric service entrance accordingly. Services not meeting the City minimum standards and the National Electric Code will not be connected.**

The Building Department will forward a copy of the electric meter base release form and site plan to the City Electric Department. The City Electrical Construction Inspector will contact you within a reasonable time to make arrangements to meet with you on the matter. The City will discuss your options and associated costs for electric service to your site. If you desire, a formal estimate can be drafted and forwarded to you outlining the associated costs. Once you have decided which option (if any) you desire, you must inform the City Electrical Department. The City will then generate an invoice for the proposed service installation. The invoice must be paid in full before the initiation of the installation will occur.

For questions regarding this procedure please contact the City engineering department at (419) 592-4010. For questions regarding estimates, electric service entrance layout/routing or costs associated with installation, please call the electric department at (419) 592-9116.

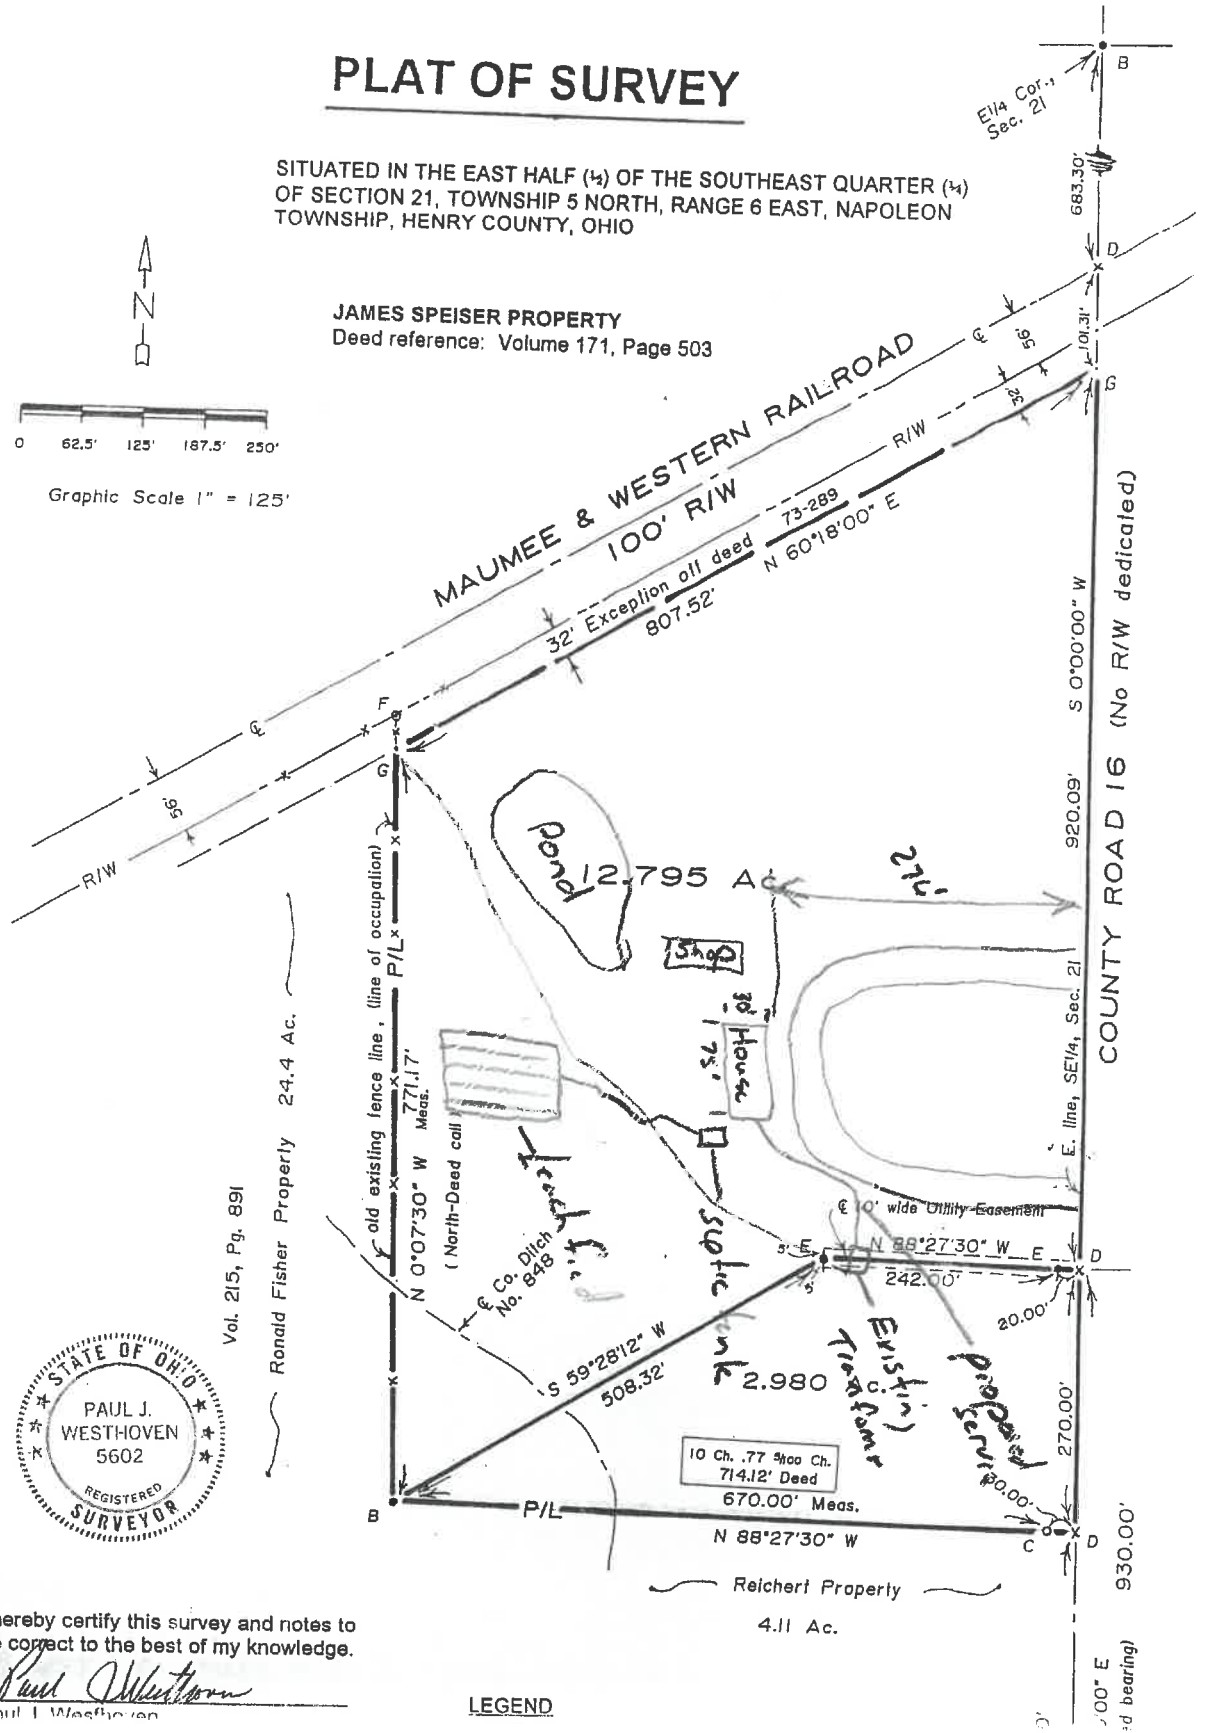

**\*It is against the law to tamper with the City electrical equipment or wires. You may not disconnect or re-connect an existing or new electrical service yourself.**
