*Subject: Warehouse 605 Euclid*

I have investigated the warehouse that Mr. McDowell owns at 605 Euclid Ave. and have concluded that the stoned area along Euclid in the front of the building is indeed a loading zone rather than a parking lot.

I have based my decision on the fact the building is used as a warehouse. Also if the area in question were to be used as a parking lot there would be a site distance problem at the intersection of Euclid and Spruce Street and could pose a safety problem..
