

Board of Zoning Appeals

Subject: Denial of Building Permit to Napco Plastics Inc.

Gentlemen:

This office has denied the issuance of a Building Permit to Napco Plastics Inc. for the construction of an addition to their existing building for the reason of not complying with Specification D, Rear Yard requirements as outlined in the Zoning Ordinance of the City of Napoleon, Ohio.

Napco Plastics have appealed the decision of this office in writing to the Board of Zoning Appeals. In answer to the three statements presented in the letter of appeals, we find that from our investigations of the premises and the building plans the statements are true.

This office does not have the authority to grant this request, so we are referring this matter to the Board for a decision.

Robert C. Jones  
Building Commissioner
