Prepared For Gregg Leupp,

Thank you for your interest in Sign*A*Rama. This is the estimate for the items we discussed. If you have any questions, please feel free to call me.

Description	Double-sided 5 foot x 12 foot lighted sign cabinet. U/L approved internal fluorescent lighting, white pan faces with 2 colors of translucent vinyl graphics (logo designs for LEUPP and CHIEF Buildings). The cabinet will be constructed from heavy duty aluminum extrusions and will be 14 inches wide and have a hinged face for ease of changing bulbs. Sign-A-Rama will bring the finished sign cabinet and the pole to the job site and be on site for the installation process.

Leupp will:

- 2) trench electrical power to the sign location (either to go up the center of the foundation or can be to the side of the foundation :will have to be pre-determined to make the correct provisions in the pole and cabinet)
- 3) Lift the sign cabinet to the top of the pole and weld it in place. (The sign will have a "stub" pole protruding from the center bottom of the cabinet that will slide into the ground pole)
