Chief of Division

NOTICE

This Department recently made changes in the prevailing wage rate in your area. The changes are listed on the attached sheet.

These wage rate changes are to be sent to all contractors and subcontractors who are performing work for your agency, and should be included in specifications for work currently out for bid.

This communication includes recent wage rate changes. This is not to be used as a complete wage rate schedule. You should contact this office by letter for a complete wage rate determination for each new public improvement project or group of public improvement projects.

Please be aware that the contracting public authority may be civilly liable for any wage deficiencies not paid the workers on a project if the public authorities fail to notify the contractor of these changes.

If you have any questions regarding this matter, please direct them to this Office.

WAGE DETERMINATION

NOTICE

Rates for classifications not appearing on this list must be obtained from the Department of Industrial Relations

HENRY

COUNTY

JUN - 2 1982

DETERMINATION DATE

AUG 31 1982

EXPIRATION DATE

The following pages are prevailing rates of wages on public improvements fairly estimated over \$4,000.00, as ascertained by the Department of Industrial Relations for the county and on the date listed above, and as provided for in Sections 4115.03 through 4115.16 of the Ohio Revised Code.

Section 4115.05 provides, in part: "Where contracts are not awarded or construction undertaken within ninety days from the date of the establishment of the prevailing rate of wages, there shall be a redetermination of the prevailing rate of wages before the contract is awarded." The expiration date of this wage schedule is listed above for your convenience only. This wage determination is not intended as a blanket determination to be used for all projects during this period without prior approval of this Department.

Section 4115.04, Ohio Revised Code provides, in part: "Such schedule of wages shall be attached to and made a part of the specifications for the work and shall be printed on the bidding blanks where the work is done by contract . . ."

A further requirement in Section 4115.04, Ohio Revised Code, is: "A copy of the bidding blank shall be filed with the Department of Industrial Relations before such contract is awarded . . ." The bidding blank should be filed with this Department at the same time that the invitations are furnished to the prospective bidders.

The contract between the letting authority and the successful bidder shall contain a statement requiring that mechanics and laborers be paid a prevailing rate of wages as required in Section 4115.06, Ohio Revised Code.

The contractor or subcontractor is required to file with the contracting public authority upon completion of the project and prior to final payment therefor, an affidavit stating he has complied with Chapter 4115. of the Ohio Revised Code.

The wage rates contained in this schedule are the "Prevailing Wages" as defined by Section 4115.03, Ohio Revised Code, and certain basic hourly rates plus certain fringe benefits. These rates and fringes shall be a minimum to be paid under a contract regulated by Chapter 4115., Ohio Revised Code, by contractors and subcontractors or by a letting authority if the work is done by force account. The prevailing wage rates contained in this schedule include the effective dates and wage rates currently on file. In cases where future effective dates are not included in this schedule, modifications to the wage schedule will be furnished to you as soon as prevailing wage rate increases are received by this office.

"There shall be posted in a prominent and accessible place on the site of the work a legible statement of the schedule of wage rates specified in the contract to the various classifications of laborers, workmen and mechanics employed, said statement to remain posted during the life of such contract." Section 4115.07 Ohio Revised Code.

Apprentices will be permitted to work only under a bona fide apprenticeship program if such program exists and if such program is registered with the Ohio apprenticeship council.

Section 4115.071 provides that no later than ten days before the first payment of wages is due to any employee of any contractor or subcontractor working on a contract regulated by Chapter 4115, Ohio Revised Code, the contracting public authority shall appoint one of his own employees to act as the prevailing wage coordinator for said contract. The duties of the prevailing wage coordinator are outlined in Section 4115.071 of the Ohio Revised Code. Section 4115.05 provides for an escalator in the prevailing wage rate. Each time a new prevailing wage rate is established by the Department of Industrial Relations, then that rate is required to be paid on all ongoing public improvement projects.

A further requirement of Section 4115.05, Ohio Revised Code, is: "On the occasion of the first pay date under a contract, the contractor or subcontractor shall furnish each employee not covered by a collective bargaining agreement or understanding between employers and bona fide organizations of labor with individual written notification of the job classification to which the employee is assigned, the prevailing wage determined to be applicable to that classification, separated into the hourly rate of pay and the fringe payments, and the identity of the prevailing wage coordinator appointed by the public authority. The contractor or subcontractor shall furnish the same notification to each affected employee every time the job classification of the employee is changed."
