October 3rd, 1995

Mr. James Small 907 W. Graceway Napoleon, Ohio 43545

Re. Unsafe electric service entrance at your residence.

Dear Mr. Small

The purpose of this letter is to inform you of the unsafe electric service entrance at your residence.

While on routine inspection I noticed that the electric service drop feeding your home enters through your garage roof, and the connection to your service mast is in the attic of your garage.

This is considered to be a very unsafe condition, therefor I must condemn your electric service entrance.

Please contact an electrician within 10 days of receipt of this notice and make arrangements to have your electric service upgraded to code compliance.

If you have questions regarding this notice please call me at 592-4010.

Sincerely

Brent N Damman Building & Zoning

Administrator
