Call from No answer

- 50 - 1. Window Repairs: (1) Repair the West livingroom window to allow window to open (2) Repair East diningroom window, attaching window weights to sash (3) Repair South window of first floor bed, attaching weights to sash with cable (4) Repair the East window of first floor bedroom to allow window to open (5) Repair the West 2<sup>nd</sup> floor bedrooms window, attaching weights to sash. (6) Repair the East window of the N-East bedroom, attaching weight to sash.

2. Electrical: Replace all ungrounded electrical wire with properly sized "romex". Replace all receptacles and switches, throughout the home.

Basement: 1) Install wall switch to control all lights in basement.

2) Replace electrical feed to water heater with properly sized "romex" installed in conduit.

3) Replace electrical feed to the furnace with properly sized "romex", installed in conduit, to a 15 amp fused control switch.

Kitchen: GFCI protect the N-East and N-West counter receptacles and install ONE (1) additional gfcI protected counter receptacle at S-East wall.

Diningroom: Install an additional wall receptacle at South wall (West of kitchen doorway). Install wall switch, near kitchen entry, to control the top receptacle on the South wall.

Bathroom: Install a gfcI protected wall receptacle, near vanity.

Livingroom: Install an additional wall receptacle at North wall ( below double windows in cantilever ). Install wall switch, near front entry, to control the top receptacle on the West wall.

S-West bedroom (#1): Install an additional wall receptacle at West wall.

S-East bedroom (#2): Install THREE (3) additional wall receptacles (locate ONE each the North, South, and West walls).

West bedroom (#3): Install THREE (3) additional wall receptacles (locate ONE each the North, South, and West walls). Install wall switch to control the closet light and replace fixture with enclosed flourescent, cost not to exceed \$30.00 less installation.

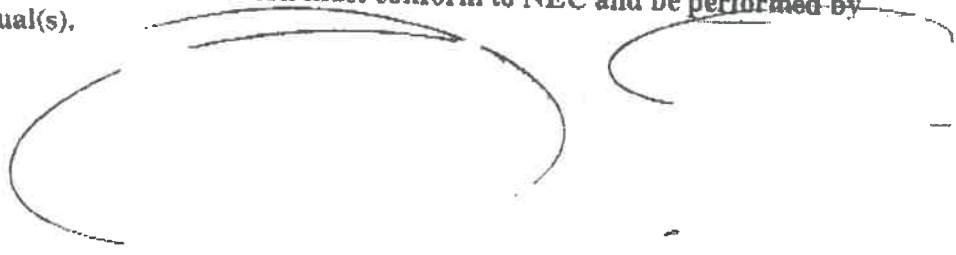

N-East bedroom (#4): Install TWO (2) additional wall receptacles (locate ONE each the North and East walls).

CO detector: Install ONE hardwired with battery back-up CO detector in the basement stairwell.

Smoke detectors: Install THREE (3) U.L. approved hardwired with battery back-up smoke detectors, wired in series. Locate ONE each the basement, livingroom/diningroom area, and North-West area of bedroom #2.

Garage/shed: GFCI protect all wall receptacles.

NOTE: All electrical work must conform to NEC and be performed by qualified individual(s).

**3. Plumbing:**

**Basement:** Install a gated shut off valve to the water supply line of the water closet.

— **Water Heater**— Extend the temp./pressure relief valve to within 3" of floor with 3/4" copper pipe. Install a gated shut off valve to the cold water supply line.

**Kitchen:** Install a gated shut off valve to the sink faucet supply lines.

**Bath:** Replace the vanity sink drain trap with "p" trap.

~~Install new internal parts to the water closet to insure proper flush, fill, and shut-off operation.~~

**Exterior:** Replace the TWO (2) exterior sill cocks, located at the South and S-East locations, with frost proof sill cocks with vacuum break.

**4. Heating:** Perform standard clean and tune to the gas furnace and install properly sized flu through the chimney and properly cap at termination point exiting the chimney.

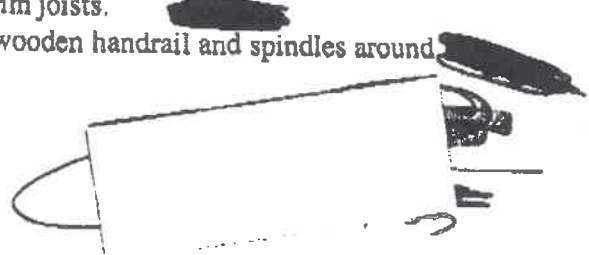

**5. Interior Carpentry:**

**Basement**— Construct 2"X4" walls enclosing both sides of the stairs. Secure 1/2" plywood to wall studding. Secure pre-finished wooden handrail, secured to wall studding by metal handrail brackets.

Secure R-19 batt insulation to entire perimeter sill/rim joists.

**Second floor stair landing**— Secure pre-finished wooden handrail and spindles around stairwell.
