James Zumfelde

On January 18, 1983, I was requested to do an inspection at 817 Hobson. I am Building Commissioner for the City of Napoleon and Chairman of Henry Metropolitan Housing Authority. Starting in March of this year, Metropolitan Housing will start taking applications for low income persons to become qualified for rent subsidy. Ms. Taylor and Ms. Cooper wanted to know if the suites they occupy would qualify for H.M.H.A. After inspection of the suites, I would say yes the suites would probably qualify. There are some things that should be taken care of as soon as possible. The second floor ceilings show signs of water damage and the hall ceiling has already started to fall.

City Manager

Richard A. Hayward

The first floor walls show signs of cracking from the settlement of the structure.

The second floor refrigerator is not working properly and does not keep food cold. The tenant has lost some food due to spoilage.

Law Director

Keith P. Muehlfeld

The above mentioned items should be taken care of immediately. Your cooperation in this matter is appreciated.

Yours truly,

Richard G. Hayman
Building Commissioner
