Terri A. Williams

Dear Randy

The site for the proposed AMP-Ohio Napoleon Distributive Generation Station along the west edge of 1775 Industrial Drive (City of Napoleon Service Garage) is in an I-2 Open Industrial Zoning District. In accordance with City Code Chapter 531 "Noise Control" the maximum noise level permitted in this district is 80 dBA at any time of day. According to City Code Chapter 1141 publicly operated facilities are permitted in the I-2 Open Industrial District through the issuance of a Special Use Permit by City Council. We have a public hearing scheduled for April 13, 1999 with the City Planning Commission who will then make recommendation to City Council on April 19, 1999 for final action and approval. Because this is a permitted use through the issuance of a Special Use Permit the only issues that may affect the installation would be cost related (i.e. screening, noise level abatement, etc.) There would be no issues which could prohibit the installation.

City Manager
Jon A. Bisher

Finance Director
Gregory J. Heath

Law Director
David M. Grahn

City Engineer
Adam C. Hoff, P.E.

I will be in contact with you as to the outcome of the Planning Commission public hearing and subsequent City Council meeting. I will then issue a Zoning Permit accordingly when appropriate.

If you have questions please call me.

Sincerely

Brent N Damman

Zoning Administrator

PC. Dr. Jon A. Bisher, City Manager
Mr. Mike Heise, Electrical Superintendent
Mr. Adam C. Hoff, P.E. City Engineer

Napoleon, Ohio 43545-1478

RE: AMP-Ohio Napoleon Distributive Generation Station

Dear Mike:

Since construction of the AMP-Ohio Napoleon Distributive Generation Station is scheduled to begin soon, we would like to verify that the proposed facility complies with current zoning requirements, and if required, has received approvals from any local planning boards/commissions. A return letter affirming this would be appreciated.

On behalf of the members,
