Mayor
Steven Lankenau

Re. Room addition @
40 Lafayette.

Dear Mr. Gloor

I have review the existing foundation columns which you placed for the above referenced room addition. Unfortunately they do not appear to be providing adequate support for the structure placed above them. The only explanation I can find for this, is that they are not providing the same amount of load bearing capacity as the original house structure footings, and because the two structures are attached explains the movement which is occurring.

I am suggesting that the existing columns be removed and replaced with the type and size shown on the enclosed sketch, as this would more equal the existing house structure footings load bearing capacities.

The City of Napoleon and myself are not liable for any further problems which may occur during and or after placement of the new columns.

If you have any questions you may contact me at 592-4010.

Sincerely

Brent N Damman
