

DISPATCH 0103173, INCIDENT 013142
FEMALE CALLED REF NEIGHBOR RUNNING AIR COMPRESSOR ALL DAY LONG.
PTL BOSTELMAN HANDLED 5-20-01 DKJ

Sun. 05-20-01

I responded to a noise complaint called in by Fran Maurer who lives at 910 Woodlawn Court. She advised that the neighbor behind her (on Lombard) was running his air compressor (or whatever it is) again and the noise is generally disturbing the whole neighborhood. I met with Dave Clark who lives and has a welding business at 909-1/2 Lombard. Dave showed me a permit he received from the City (35-010672) which shows he has a permit to conduct his business at that address. The noise was coming from a white pickup truck that houses his welder. The truck was parked near the rear of the property; along the back property line of the cp's. residence. I advised Dave of the complaint and further stated I would check with Pros. Grahn with the noise ordinance and how it relates to his business. I did not make him stop his work at this time.
