Dear Mrs. Middleton:

Members of Council
Lawrence Haase, President
James Jackson
William Young
Darel AusterMiller
Darrell Fox
James Zumfelde

Please forgive me for not answering your first letter.

There is a great amount of negative reaction to the street and sewer assessments, and, as of this writing, it is not certain if the street and sewer program will continue.

Law Director
Keith P. Muehlfeld

As for your question, if you can get help with the assessment, I would have to say no. The criteria for qualifying for assistance is that the owner has to live in the house and would have to have resided there one year prior to July, 1981.

The criteria could be changed at a later date if we would not get enough people qualifying.

We will keep your letter on file, and if the criteria changes in your favor, you would be notified.

If you have any other questions, please feel free to write.

Yours truly,

Richard G. Hayman
Building Commissioner
