James Hershberger  
Travis B. Sheaffer  
John A. Helberg  
Steven C. Small  
Glenn A. Miller

Dear Sirs

I met with Kirt Bucher of Cousino Construction Co. today regarding the electrical improvements necessary for the subject home. The current system does not meet City Code or the National Electric Code including the service entrance assembly. In order to meet the current City codes (City of Napoleon Electrical Service Rules and National Electric Code) it will be necessary to completely rewire the upstairs apartment including a new service entrance and circuit panel. It will also be necessary to upgrade the electrical service entrance for the downstairs apartment as the services are currently combined. I would suggest using a two (2) gang meter base for this situation. There are also electrical hazards connected to the downstairs service entrance which will need to be brought up to code. This will include new service conductors and a new circuit panel.

**City Manager**  
Dr. Jon A. Bisher

**Finance Director**  
Gregory J. Heath

The City of Napoleon has specific rules and standards for service entrances and it is important to review these standards when applying for the electrical permit.

**Law Director**  
David M. Grahm

**City Engineer**  
Joseph R. Kleiner, P.E.

If you have questions or concerns please call me at 592-4010.

Sincerely

Brent N Damman
