TERMS AND CONDITIONS OF SALE

1. PRODUCT TO BE SHIPPED BY SELLER

Seller shall furnish and deliver only those items specifically set forth in this Agreement. Any accessory items (such as bridging, bracing, blocking panel, bolts, nails, etc.) which are not listed on the reverse side hereof shall be furnished by Purchaser at its sole cost.

2. SELLER'S LIMITED WARRANTIES

SELLER WARRANTS THAT THE PRODUCTS DELIVERED WILL BE FREE FROM ANY DEFECTS IN WORKMANSHIP OR MATERIALS. SELLER FURTHER WARRANTS THAT THE DESIGN OF ITS PRODUCTS SHALL BE ADEQUATE TO CARRY THE LOADS SPECIFIED BY THE BUYER. SELLER'S SOLE RESPONSIBILITY SHALL BE REPAIR AND/OR REPLACEMENT OF GOODS SOLD. IN THE EVENT OF DEFECT OR NON-CONFORMITY, BUYER SHALL PROMPTLY NOTIFY THE SELLER IN WRITING AND WILL PROTECT AND RETAIN THESE PRODUCTS FOR A REASONABLE AMOUNT OF TIME TO ALLOW THE SELLER TO INVESTIGATE AND MAKE NECESSARY CORRECTIONS OR REPLACEMENTS. THERE ARE NO OTHER WARRANTIES, EITHER OF MERCHANTABILITY OR FITNESS, EITHER EXPRESS OR IMPLIED. FURTHER, IF THE PRODUCT IS NOT USED IN STRICT CONFORMANCE WITH THE SELLER'S PUBLISHED DESIGN LIMITS OR IF PRODUCTS ARE IN ANY WAY ALTERED EXCEPT AS EXPLICITLY PROVIDED IN SELLER'S PUBLISHED INSTRUCTIONS OR BY PRIOR WRITTEN PERMISSION OF SELLER, THEN ALL WARRANTIES ARE VOID AND THE SELLER IS ABSOLVED OF LIABILITY.

3. DELIVERY AND CLAIMS FOR SHORTAGE OR DAMAGE

Seller shall deliver the products to Purchaser FOB truckbed jobsite. Immediately upon receipt of the products, Purchaser agrees to inspect them for damage and shortage. Seller, at its sole cost and as soon as reasonably possible, shall replace any shortages and repair or replace any products damaged in transit, provided Purchaser indicates such shortage or damage on the Bill of Lading at time of delivery. Repair or replacement of damage or shortages discovered at a later date will be made only as Seller's responsibility can be established by the Purchaser. Damaged products shall be held intact at the jobsite pending inspection by Seller. Purchaser will pay for that portion of the shipment for which there is no claim, as per the terms of this contract. Such partial payment does not constitute a waiver of Purchaser's rights with respect to any claim made by Purchaser. Seller will not be responsible for loss or damage arising from delays caused by lack of correct or complete data to be furnished by Purchaser, changes or revisions, late approval of shop drawings; acts of God; Seller's inability to obtain raw material, or other causes beyond Seller's control.

4. TERMINATION

Because the material which is the subject of this agreement will be custom made, this agreement may be cancelled only by consent of all parties, except that if Purchaser is or becomes delinquent in payment for materials shipped under this or prior

orders, or Purchaser's credit standing is not maintained satisfactorily to Seller, Seller may withhold further shipment, or may cancel the uncompleted portion hereof, and will, in that event, be entitled to compensation for the full portion of performance by Seller prior to cancellation. Compensation for performance shall include all costs incurred by Seller including engineering detailing, purchase of special stock, manufacturing and fabrication, and a reasonable allowance for overhead and profit.

5. PAYMENT

Cash discounts as set forth on the reverse side hereof shall be allowed only for invoices that are timely paid. Cash discounts for products in this Agreement will not be allowed if any past due balance appears on Purchaser's account with Seller. Partial order shipments, if any, will be invoiced pursuant to the value estimated by Seller. Interest will be charged on all past due accounts at the rate of 2% per month (24% per annum), or the maximum legal rate, whichever is the lesser. Purchaser agrees that there shall be no retainage of the purchase price for products purchased under this Agreement, and further, that Seller shall not be bound by the terms and conditions of any general contract or subcontract between Purchaser and third parties. Upon full payment of the purchase price and if requested in writing by Purchaser, Seller shall furnish all necessary lien waivers or other documents required to assure the prevention of liens. Any payment by Purchaser or receipt or acceptance by Seller of a less amount than the purchase price herein stipulated shall not be deemed to be other than on the account of the Purchaser, and shall not prejudice Seller's right to recover the balance of such purchase price.

6. INSTALLATION REVIEW

Seller may, from time to time, review the installation of the products at the jobsite. It is understood that Seller is under no obligation to make such inspection, and if it is made, it is understood that Seller does not thereby become an insurer, nor shall such inspection give rise to any additional warranty of merchantability or fitness, express or implied.

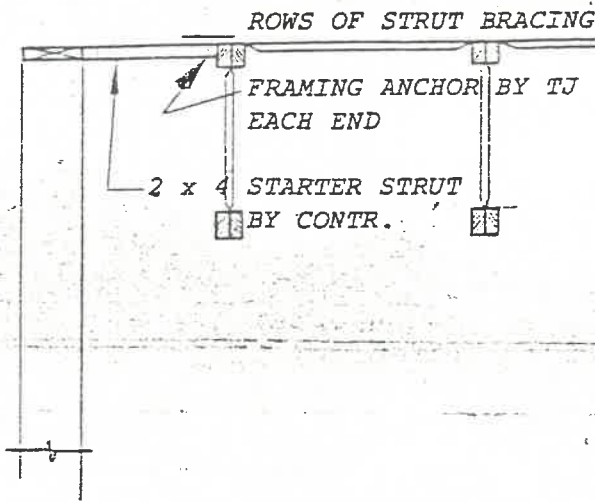

7. ENFORCEMENT

If it becomes necessary for either party to commence legal action to enforce any of the terms of this contract, the prevailing party in such legal action shall be entitled to reasonable attorneys' fees.

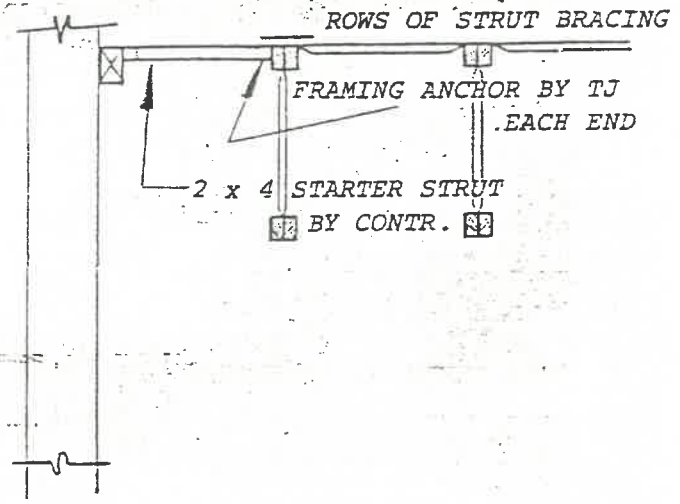

8. CONFLICTING TERMS AND ENTIRE AGREEMENT

To the extent any conflicting terms or conditions are embodied in the Purchaser's Purchase Order, Purchaser and Seller hereby agree that the terms or conditions contained herein shall supersede any conflicting terms or conditions. This Agreement embodies the entire agreement between Seller and Purchaser and any subsequent modification must be accepted by the Seller in writing.

James Zumfelte

Dear Mr. Bernicke:

City Manager
Richard A. Hayward

Law Director
Keith P. Muehlcid

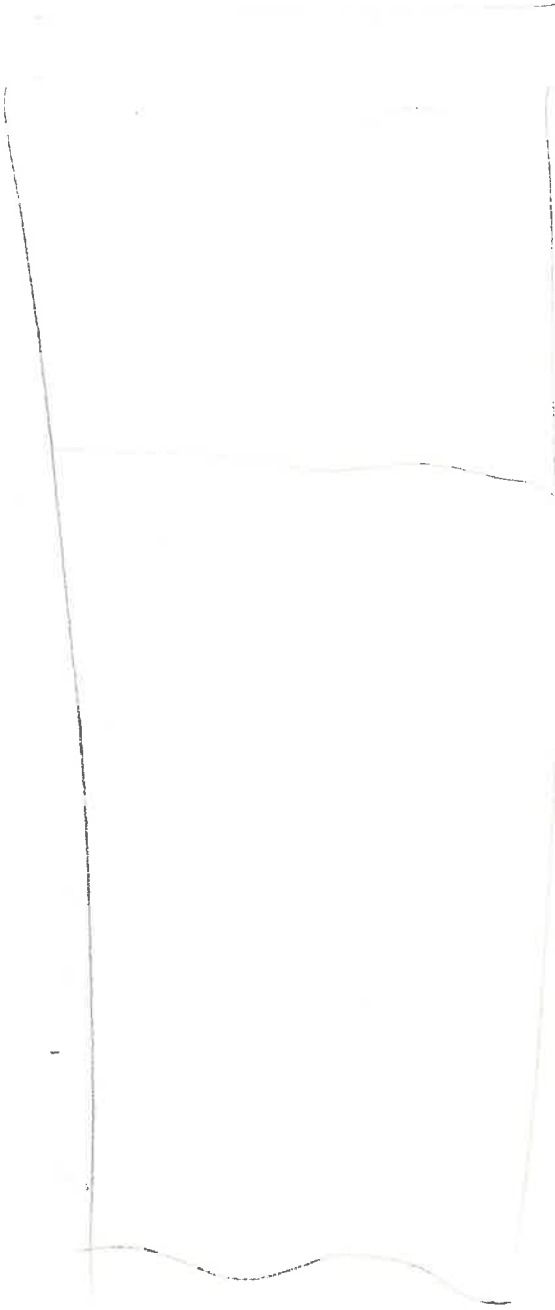

I have reviewed the Ohio Building Code and consulted with an architect on the staff of the Ohio Department of Building Standards concerning the above referenced project. The stage must either be constructed of materials to provide a three-hour fire rating or constructed so that the stage is fire stopped into areas of one hundred square feet or less. The existing permanent stage meets these requirements, it is constructed of concrete protected steel beams with a concrete floor, two layers of wood subfloor and maple hardwood flooring.

The City of Napoleon will issue a Building Permit, only if there is a letter accompanying the application from a Registered Engineer or Architect stating that the existing construction of the auditorium floor can support the additional loading of the stage extension.

Sincerely yours,

Von Eric Berlin, P.E.
City Engineer
