Jesse Stopped at my office at about 9:45am asked ~~if he needed~~ if he needed a permit to do a little repair on a foundation under a porch, continued to be little the job by say its only for a porch just a little job. ...

Told him I need to look at it first, got on job site at 9:50 disiond compute excavation around a fully attached porch and they had concrete ordered they had excavated 6"-7" for the footer. I explained to him that he needed a permit and that he had to excavate down 36" for a footer. also explained to him that he had to register as a contractor

which involved a cert. of insurance and a copy of his current certificate of w/c.

~~he~~ told him to meet me at 10:30am at city

building to take care of paperwork.

~~at~~ I waited at city building ~~for~~ from 10:30 until 10:50 he did not show. I went to job site to see if he was there at 10:55

Talked to home owner and explained that all
contractors must be registered and that a permit
was required also explained to her that the
main reason for registration is to protect the
home owner from liability that is why we
require a cert of ins. + proof of work comp
payment. to relieve the possibility of liability
in case an accident would occur which would
involve personal injury and/or damage to
property. left at 11:05 am.
