City of Napoleon
Marvin Weller
P. O. Box 151
Napoleon, OH 43545

Dear Sir:

This office is contacting your City to see if you can provide to us information in regards to time limits that you may have on building permits that you issue for one, two, and three family dwellings. If you have adapted CABO, you will have Section R-109.3 to use. I am looking for something more restrictive in your local ordinances than CABO.

The City of Lima is also considering a licensing law for general contractors as a possible way to control the quality of work being done for the public. If you have such an ordinance, please advise if it works and forward a copy of it to me.

Enclosed you will find a self-addressed envelope with postage. I hope you will take the time to answer my inquires and forward any copies of your ordinances that I may review. Thank you for any assistance that you may give.

Respectfully,

Richard L. Beasley
