

CERTIFICATION FORM

This form should be completed by a professional surveyor and returned to the local flood plain administrator. The form can be used to serve two purposes. First, it can be used by the property owner to certify that the completed construction meets the flood elevation standards of the community. Secondly, this form can be used by insurance agents to complete the Elevation Certificate which they need to complete for insuring new construction in the flood plain. The community should keep the completed original on file and provide the property owner with a copy that he or she can furnish to the insurance agent. In this manner the agent will not have to call upon community officials for assistance in determining the elevation data they require.

I, the undersigned, do hereby certify to the following elevation at the referenced property in compliance with the permit requirements of the Flood Damage Prevention Ordinance (Resolution) of City of Napoleon.

The 100 year flood elevation on this lot is 657.30, the location of the flood water lines is 60 to 70 feet south of house foundation wall. There will be backwater valves in all storm lines and a 3' diameter pit which will extend three feet below the house footer. A 2" discharge sump pump will be installed in the 3' dia. pit. The 100 year flood plain

Suzette Gerken
582 Moorings Drive
Napoleon, Ohio 43545

Reference: *Flood Elevation Certification*
Lot Numbered 6 of the Moorings Subdivision
Being Parts of Outlots 3 & 4 of J.G. Lowe's Addition to
the City of Napoleon, Henry County, Ohio

Dear Suzette:

Please find a copy of the Certification Form dated May 11, 1995 for your property located on the referenced Lot 6. The flood elevation min. of 657.3 was stated to me by Brent Damman, The Building & Zoning Administrator at that time.

As noted on the Certification Form the property location was 600 Moorings Drive, but was later revised by the City to **582 Moorings Drive**, to conform the sequence of parcels for assigned address procedure.

The said information should help clarify prior circumstances to permit future loan opportunities.

Sincerely,

Herbert Behrman, Registered Engineer & Surveyor
