Ref: Demolition and Electrical
Permits for the property
on North Street

Dear Mr. Heitman:

Enclosed find the following:

1 - copy of the application for a commercial Electrical Permit. Complete this form and submit it to the Wood County Department of Building Inspection. Along with whatever drawings they may require. When you receive your permit from Wood County, submit a copy to the Napoleon Electrical Department when you request that your service be relocated.

1 - copy of the Napoleon City application for a Building - Demolition Permit. Complete this form and return it to the Napoleon City Building Inspector. In addition to the application, submit the following:

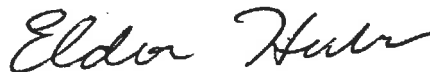

1. A copy of the notice you are to mail to all adjoining property owners you have mailed it to.
2. You must notify in writing all utility companies which serve the building. Copies of the notice to accompany your application.
3. You must obtain a certificate from the Henry County Health Department stating that the building is free of rodents and other pests.

4. You must submit a copy of your liability insurance policy.
5. I have enclosed a copy of the Napoleon City Building Code Section No. 150.08 which covers demolition work.

In conclusion, I would like to point out that Section 150.99 calls for a \$100.00 penalty to be imposed for each day a violation of the Building Code exists. You did violate the Code when you demolished the rear portion of your building without a permit.

Note: be sure and list the size of the building length, width, and height on your application.

Sincerely,

Eldon Huber
Building Inspector
