there-of. Date approved OR DISAPPROVED /Z-29-88 Checked by FCOON HUBER

Plan Examiner.

			. I

ADDENDUM NO. 2 TO PERMIT NO. 01684 FOR 192 OLD CREEK DRIVE

Item No. 1 regarding removal of 2 columns, 1 east and 1 west of the fireplace.

- A. Span 6' +- in order to remove the column located in the hallway just east of the fireplace and stairway. This column can be removed if you install a 2 2 x 8 header. These 2 x 8's can be attached to the sides of the existing 3 2 x 12 beam and are required due to the joint in the beam above the column.
- B. Span 17' +- the column located in the living space west of the fireplace must remain due to the joint in the 3 2 x 12 beam above the column. The only alternative would be to remove the 3 2 x 12 beam and install a steel beam or lam. wood beam in its place which would be capable of supporting the main floor and attic loads imposed on the beam.
- Item No. 2 Since the natural gas fire furnace is located in the space below the stair, line the stair with 5/8" fire shield drywall tape and spackel the joints.
