R.E. Sidewalk Repair

Dear Sir:

In response to your letter dated April 27, 1979, concerning repair of my sidewalk. I would like to protest the unfair amount that is due me for the repairs.

Last year my sidewalks were one year old from the date that I myself had them repaired or replaced at my own expense. But during the year of 1978 the City of Napoleon had problems with their drainage systems that are located

in front of my residence. At that time the City of Napoleon proceeded to perform their duties. They brought construction equipment (Back hoes & trucks with out-riggers) that crack and broke the sidewalk.

Cement trucks were parked on the sidewalk that were over weight for the sidewalk construction and debris was placed on the sidewalk.

At the time the debris was cleaned up and a backhoe was used which added to the destruction of the sidewalks. The backhoe even tore out a section of the sidewalk.

I feel that the City of Napoleon is responsible for the replacement of all the portions of the damages incurred on the sidewalks.

Sincerely yours,
Mrs. Pearl Gayz
