Re. Property at 131 Railroad St.

Dear Mr. Seedorf

Hope your having a good day. I regret to inform you that the electrical service at the property you own at 131 Railroad St. is in need of replacement. Upon inspection of the electrical service entrance, I have found that there are numerous City Code violations. Please contact your electrician and make arrangements to upgrade the electrical service entrance and its appurtenances. I will be glad to meet you and your electrician at the site to review the options.

Thank you in advance for your immediate attention to this matter.

Sincerely

*Brent N. Damman
Building Inspector*
