MEMORANDUM

TO: Terry Dunn, City Manager

FROM: Marc S. Gerken, P.E.; City Engineer

DATE: July 6, 1992

SUBJECT: Sanitary Sewer Replacement Raymond/Fifth Street

Last week due to a basement flooding (sewage) at 417 East Raymond owned by Jack Walters, the City again attempted the cleanout of the line running northerly along Fifth Street.

This line has constantly been a problem and it is in such bad condition that our sewer cleaner cannot clean due to numerous restrictions due to sewer collapse.

In addition, the sewage flow (presently six (6) units) flows from the Bavarian Village complex via a pump station to this line and this is probably causing the majority of the problems.

There are two options to eliminate this problem.

The first is to reconstruct by replacing the line (see attached Estimate of Cost). The other would be to construct the Palmer Ditch Sanitary Sewer and take not only Raymond Street but the Bavarian Village out of this system.

Mr. Walters has had this problem before and his patience has been good to this point.

Any future problems (flooding) should be the City of Napoleon's.
