

CERTIFICATION FORM

This form should be completed by a professional surveyor and returned to the local flood plain administrator. The form can be used to serve two purposes. First, it can be used by the property owner to certify that the completed construction meets the flood elevation standards of the community. Secondly, this form can be used by insurance agents to complete the Elevation Certificate which they need to complete for insuring new construction in the flood plain. The community should keep the completed original on file and provide the property owner with a copy that he or she can furnish to the insurance agent. In this manner the agent will not have to call upon community officials for assistance in determining the elevation data they require.

The following information was supplied by the City of Napoleon Department of Building Inspection and was the basis for establishing the building floor slab subgrade;

Benchmark: Top of Southwest bolt top flange fire hydrant # 283 North of East Riverview Avenue pavement and Easterly of the Anthony Wayne Restuarant USGS Elev. 662.20
Min. Subgrade Elev. 655.70

I, the undersigned, do hereby certify to the following elevation at the referenced property in compliance with the permit requirements of the Flood Damage Prevention Ordinance (Resolution) of the City of Napoleon, Ohio.

Location of property	<u>575 East Riverview Avenue</u>
Owner of property	<u>Everrett Johnson</u>
Lowest floor elevation, including basement	<u>656.00 on grade stake East lot line</u> _____ feet above msl. (mean sea level)

575

Eugene C. Gerken
Signature of Surveyor
Eugene C. Gerken, Ohio P.S. # 5061
Date August 7, 1995
