Re: Hogrefe Auto Parts

Dear Sir:

Thank you for your letter of September 3, 1981. I am sorry that my response was delayed, but I have only recently heard from my clients. The best date would be October 7, 1981 in the morning, if possible. Might I suggest 10:00 at the Napoleon City Building. Please advise at your convenience.

Very truly yours,

Allen M. Adler

AMA:nc

1. What is suitable screening.
2. What is length of time for vacation.
3. Item 2. To leave most of the area there would be ok except for a large bulldozer.
4. There are two buildings there that should be repaired (holes closed) and painted.
5. Over the years, the junk yard has changed from Oakwood to 424 and the area on Oakwood should be discontinued.
6. As far as erecting a storage building on 424, the use would need a special use permit for more than 1 building on a lot.
