C.O.R.E.E. Residential would like to move their office into a home that is being purchased by Tracy Basselman. There would be 2 people working in the office Monday - Friday from 8:30am-4pm. Other staff members would periodically be stopping in to drop off paperwork or have a meeting. Other than those times it would only be the 2 people that work daily. We would also like to utilize the space to provide respite care for individuals with disabilities. These times would primarily be on the weekends and occasionally overnight. During this time it would be the individual receiving the services and a staff person staying at the home.
