Attn: Mr. Brent Damman

RE: LASSUS – NAPOLEON, OHIO JOB #50320

Subsequent to the completion of the construction documents and the state/county plan review, it was brought to the table by the contractor that three phase electric service is available but at a high cost. The attached schematic service has been proposed and accepted by the owner, builder, and our firm.

We would request your blessing on this revision as well. Thank you for your review assistance.

Sincerely,

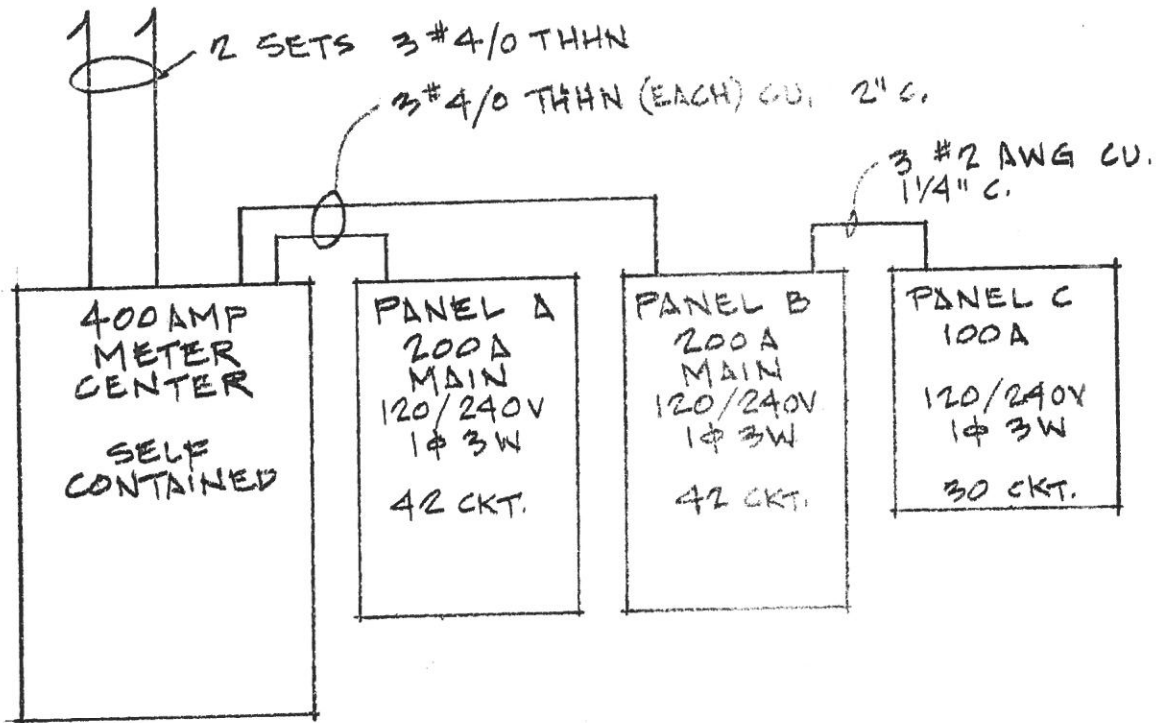

PHILLIP A. TROYER,
ARCHITECT
