Re: Survey for Waterline Easement
at Valleybrook

Dear Mr. Kleiner:

Thank you for taking me out to review the project.

We propose to provide the following services to assist you:

1. We will adjust bearings to coincide with the State Plans for S.R. 108 beginning at the Corporate Limits at approximately Sta. 909+73.56 and proceeding south to the site. The only exception would be if the mobile home park legal differs.
2. We will layout the centerline of your 20' wide proposed easement to be sure it falls in asphalt and at least 10' from sanitary sewers.
3. We will set pk nails on the centerline temporarily for your review.
4. Once we have verified and adjusted points, we will reset points if necessary and adjust the traverse closure.
5. If provided the legal description of the parcel, we will write the easement legal description. You should attach your drawing as an exhibit.

Please allow \$2,850 to provide these services.

We can start our survey this week, weather permitting. Please email the drawing and fax the parcel legal.

Sincerely,

A handwritten signature in cursive script that reads 'Dan Ulrich'.

Daniel R. Ulrich, P.E., P.S.
