Re. Backflow prevention device
installation @ 1320 N. Scott.

City Manager
Marc S. Gerken

Dear Mr. Delventhal

I have made several attempts to cause communication between us, however the efforts have failed. The result of such has caused an improper installation of the water meter and backflow device at 1320 N. Scott.

Finance Director
Gregory J. Heath

Please refer to the enclosed drawings which show the minimum installation standards for such a connection.

Law Director
David M. Grahn

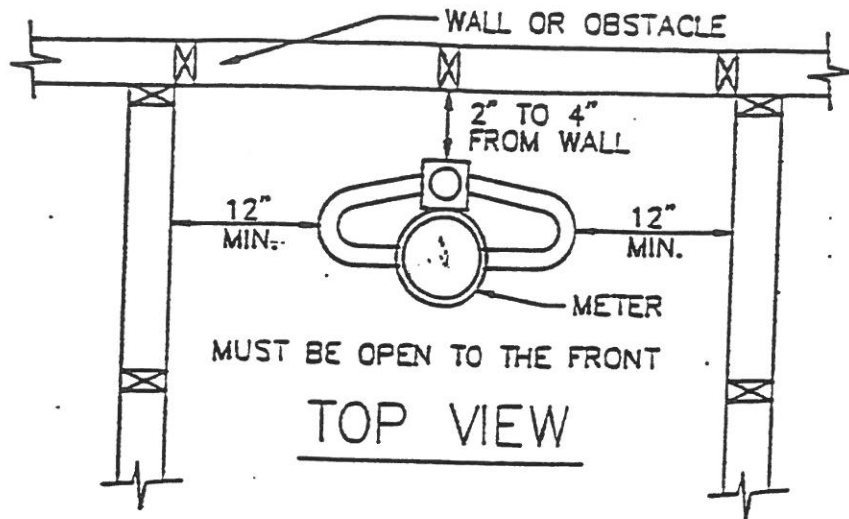

The City of Napoleon will continue to reserve the right to provide water service to the subject structure.

If you have questions, I would suggest that you communicate them to me.

Sincerely

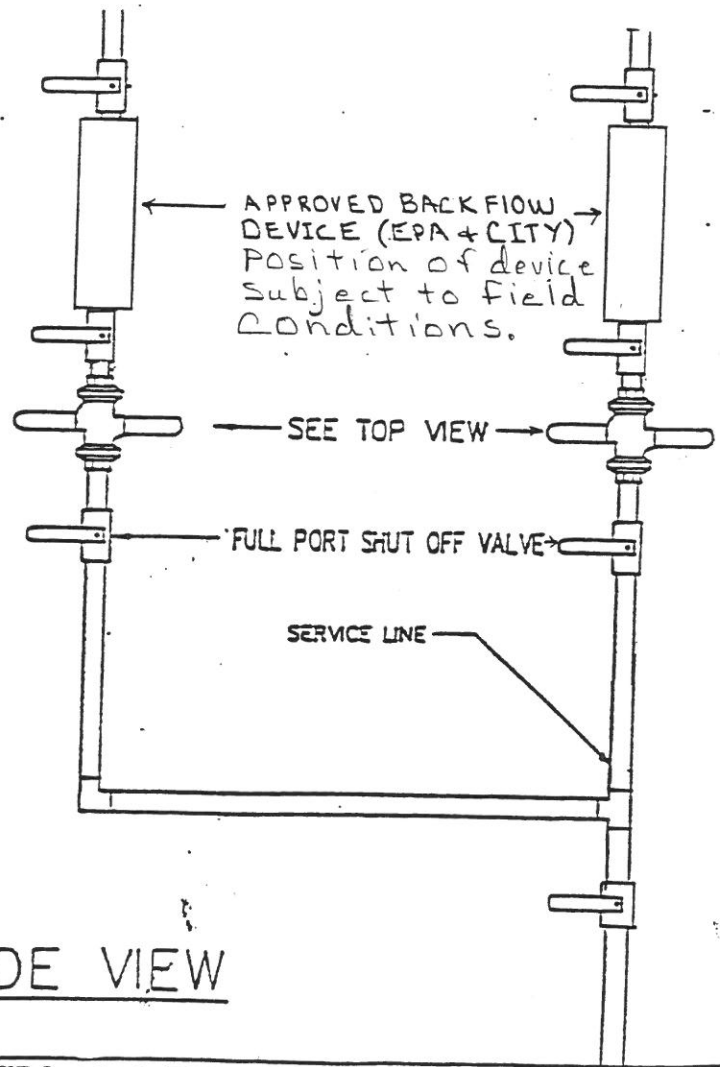

Brent N Damman
Building & Zoning
Administrator
