Total Fee 5.60

City of Napoleon
Sign Permit

February 20, 1986

Here is a rough sketch of the front of our store with the location and size of the sign we plan to mount on the existing structure.

The sign will be more than 12 feet from the curb and more than 12 feet off of the sidewalk. The sign will be constructed of 3/4 plywood sign board with ~~an~~ a painted enamel surface. It will be top lighted by existing fluorescent tubes.

We have contacted the Wood County Inspection Dept in person and all of these specifications are fine with them.
