JUST THE FACTS

First of all....No verbal agreements are recognized. Everything must be in writing on the contract. Please make sure everything is on your order. something is not on your work order, please do not request it from our staff. They are not allowed to give anything not on the contract.

Contact Info...We require at least 2 telephone numbers and an email address from every customer. Please agree to provide this information and the best phone numbers to contact you during working hours (9-5).

Project Managers... You will be assigned your own project manager. The main extension for the Installation department is 3600. Your project manager will call you the morning of your installation an let you know what time your installer is expected to arrive within a 3 hour time frame; for example 8-11, but it does vary depending on drive times and material pick up.

installation time is approx. 5 to 10 weeks after approval. Please refer to installation time frame on your contract. You may not hear from us for a period of time while we are waiting for your products to arrive. Don't worry!! We will call as soon as they are ready to schedule. If you are using our financing programs, the clock doesn't start letting until your loan is approved. Sales representatives are not allowed to change these times. We cannot hold or guarantee any installation dates. Installations are weather pending as we cannot predict Mother Nature. Sometimes crews get sick or trucks break down etc. Please be understanding about this, as it happens at every place of business. If your installation is cancelled for reasons other than weather on the day of your installation we will gladly refund you a \$100 result for your inconvenience. We use weather remorks as our outde due to our installers using tives are not \$100 credit for your inconvenience. We use weather reports as our guide due to our installation we will glady ferting you a good to so our guide due to our installation power tools, so it may not be raining at your house, but may be expected. If you MUST have a Saturd your projected time of installation may be longer than what is written on the contract. Special order items may add to the time frame.

Length of installation - Average time for a roofing installation is 2 - 5 days. Siding installations are 3 - 10 days. These time frames are based on the size of the jobs and the degree of difficulty and both ran exceed

A responsible adult 18 years or older must be at the installation site at the beginning and the end of the A responsible adult 18 years or older must be at the installation site at the beginning and the end of the job. The head installer will do a walk around with you prior to starting work to assess any existing damage, landscaping, or any property that could be affected by the construction. He is available to answer any questions you may have at that time. The head installer is also required to do a post inspection when the job is completed. We want to make sure that we exceeded your expectations, so over the job very carefully. If there is anything that needs to be addressed, he will be able to take care of it, or ensure that any necessary parts are reported and ordered. Your balance due is payable by cash, check, money order, or credit card. If you are using our financing program a completion slip may need to be signed. Your installer will need to collect at the end of the job.

Installation Team... We only use Hansons authorized contractors. All work is goaranteed by Hansons, so you never have to worry. There will be lots of nailing so please take down all decoration

Power.... Installers will need to use your electricity. They do not carry generators, I agree to supply access to my power.

Children and pels....Please provide a safe location away from the area during the installation process. installers use power tools and we don't want anyone to get hurt.

Rotted wood is beyond our control. We don't know what is beneath your shingles, your existing siding or windows. If it's a small amount, don't worry, we've got til if we find substantial rotted wood there will be additional charges for replacing, if your contract is financed, we will automatically add this amount to your loan. You will be required to sign new documents.

Permits....We pull permits on all Jobs where they are required. Your permit cost is in addition to the contract price. Every city has different prices and requirements. It is impossible for the our representative to determine how much your permit will cost, but we only charge what the city charges us, not a penny more. (Usually between \$50 - \$300)

Financing... If you are financing your balance, Hansons finance department will notify you when your loan is approved. We will work hard with the finance companies to get your loan approved and sometimes the terms will change. The finance company may also ask you for additional information and your cognerating will have speed the process. If any loan terms change, Hansons finance department and or your representative will explain them to you.

. When your installation is in process, there is debris. Some of it could fall on your landscaping. Our installers do their best, to avoid damaging your flowers, trees, and bushes, but some it does happen. Please be understanding.

Roof / Siding / Gutters:

Dumpster... Under no circumstances do we leave debris on your property. We remove everything for safety reasons. Please don't ask our sales reps or our installers if you can keep the scrap. Dumpsters are not for customer use.

Roof Installation.... If your roof is leaking we will prioritize it to the best of our ability. We will be doing a lot of banging up there, so you should expect debris in your attic. Make sure your valuables are protected with larps. We will remove and reinstall your satellites dishes but we can't see the satellite so you will have to call your provider to have it lined up.

Shingles are delivered to your roof top. There are a lot of bundles and it is very difficult to carry them up a ladder. You will be asked to sign a waiver so that the delivery truck can pull into your driveway. A dumpster will be delivered early in the morning on the day of your scheduled installation. It will also be in your driveway. Please make sure that your vehicles are out of the way and accessible to you. We don't like to trap our customers in their own garage, they get mad. Generally, the dumpster is picked up 24 to 48 hours after completion.

Gutters.... Will not have extensions unless on the work order, they are an additional charge.

Windows / Doors:

Wood.... We do not replace the wood framing or stops around your windows. We reuse your existing ones. It's better for the environment. These items are available for purchase if you would like to add them to your work order.

Construction concerns....We do not do any painting or wood staining. Sometimes, plaster may crack dur-ing construction. We will repair with first coat of mud and sand smooth. You may have to do some louch up painting and light sanding after we finish.

Grids...If you ordered grids on your windows, the patterns will be the same as what you have existing unless otherwise specified on your work order. Please make sure this is the pattern you want.

Screens.... Half screens are standard on our windows.

Window treatments... We ask that you remove all of your window treatments prior to your installation. All windows that are being replaced will need at least 3 feet of clearance inside for our installers to move. We do not take down or reinstall any blinds or draperies. Most blinds will fit after the new windows are installed, but this is not guaranteed.

Doorwalls come in stock sizes unless otherwise specified on your work order. Openings often need to be slightly altered to accommodate the size of the doorwall that you ordered.

Window A/C units.... We do not guarantee that the A/C units will fit in the replacement windows. Alarm contacts... will not be reconnected. We will leave the wires exposed and your alarm company will

need to come out and reconnect them. As you must be a licensed alarm Co. to work on alarms.

I understand the details of my pre-install checklist and I have received a copy. Please start my order immediately. If I do not answer your call within 24 hours please feel free to call my manager at extension #1111

LEAD SAFE PAINT PRACTICES

LEAD SAFE PAINT PRACTICES I/we hereby acknowledge receipt of a copy of the pamphlet, "Renovate Right: Important Lead Hazard Information for families, child care providers and schools", informing me/us of the potential risk of lead hazard exposure from renovation activity to be performed in my/our home. I/we received this pamphlet before the work began.
