Dear Kim

I have reviewed your letter regarding roaches at the subject property. I understand that Mrs. Rodriquez is the owner of the home in which she resides. If this is the case, then she is responsible for the abatement of insects at her own home. If she cannot afford to do this or refuses to, isn't there some type of assistance she can get from your office? If you currently provide services to her, why couldn't you deny service until such time the roaches are abated. It would make sense that this is a health hazard to you and your associates.

If this matter were abated by the City (through the Property Maintenance Code), Mrs. Rodriquez would face fines of up to \$100.00 per day and possible jail time. I do not believe it is in the best interest of your client as this would cause further hardship to her. In my opinion this matter is best handled by your office with assistance from the Health Department.

Dear Mr. Damon:

This letter is regarding the concern of an elderly lady I've been working with, Rebecca Rodriguez. I contacted you on September 30, 1998, asking for assistance involving roaches in the home. I haven't heard from you regarding the case and am curious as to if you have had the opportunity to make a home visit. Rebecca resides at 116 Yeager St., Napoleon. I also have some pictures at my office if you care to observe them prior to the visit.

Please contact me if you have any suggestions or outcome from the visit. Your help is highly appreciated.

Sincerely,

Henry County Department of Human Services
