Unit# 9

City of Napoleon Rehab Specifications

phone (419) 592 - 2217

Nabor Blue

1. Roofing: Remove all of the existing roof covering, down to the sheathing. Secure 15# felt to all of the roof sheathing and secure aluminum drip edge to roof perimeter. Install, per manufacturer's instruction, minimum 240# test weight, Class A fire rated, 30 year warranty fiberglass dimensional roof shingles and cap shingles. Properly flash all roof outlets.

Homeowner to select shingle color.

NOTE: Bid must include allowance to replace a minimum of seven (7) 4' X 8' sheets of 7/16" roof deck in deteriorated areas.

26 x 40 v 6/12 12
add Gutters

Everest Df

2. Siding: Remove all of the existing shake shingle siding. Secure vinyl starter strips, j-channel, corners, j-blocks, and utility trim materials and hang Mastic- Brentwood or equal quality vinyl siding to all of the prepared house sidewalls. Homeowner to select siding and accessories color(s).

Kwikset

2-8 9lite
Beck
RH 4 9/16

3-0 5 3/8
#892

3. Exterior doors: Replace the front and rear entry doors with Stanley, Therma-Tru, or equal quality pre-hung insulated steel door with light. Door must be factory painted or contractor applied (TWO coats). Homeowner to select door style and color from contractor options. Contractor must repair all damage incurred from door replacement.

Install Kwikset-Belaire Series or equal quality lockset with dead-bolt lock. Front and rear locks must be keyed alike.

~~7-281~~ Nabor Blue chip

4. Storm doors: To each the front and rear newly installed doors, install white color Larsen, Louisiana Pacific, or equal quality storm doors, complete with safety glass, insect screen, all hardware, latch set, trim, and accessories. Installation must be done in accordance with manufacturer instructions.

white
coil

5. Exterior window trim: Repair any/all deteriorated exterior jambs, sills, and casings. After areas have been properly repaired, wrap all exterior window trim with aluminum coil materials. Lay a continuous bead of exterior window/door caulk to corners, perimeter (against the j-channel) and around the edge of the below specified replacement windows.

Homeowner to select coil color.

6. Window Replacement: Replace all of the windows with white vinyl replacement windows (Certainteed, Seaway, or equal quality). Replacement windows must be double pane, with lock mechanism and half-screen. Window perimeters (including weight cavities) must be insulated

8' x 4' 6" Pic/plankers + 9 units

10. **Ceiling repair:** Remove all of the ceiling tile from the ceiling of the rear porch. Replace and/or re-secure any insufficient furring strips. Install new 12" X 12" ceiling tile to entire ceiling area.

54 pcd

11. Electrical:

Electrical service – Install a new weather head, mast, meter, and service wire to the south wall of the rear porch

Electrical panel – Replace the existing panel with a 100 amp/twenty space electrical panel, located on the south wall of the rear porch. Panel must include all proper amperage breakers to properly distribute electrical power to all devices and appliances.

Electrical wiring – Replace all ungrounded electrical wire from the panel to all electrical devices with properly sized "Romex"-type wire with ground.

Electrical devices – Replace all of the receptacles and switches throughout the home with U.L approved devices.

Kitchen – GFCI protect the west wall receptacle and the north counter receptacle. Install ONE (1) additional gfci protected receptacle on the north wall, west of the sink.

Livingroom – Top receptacles to be controlled by the wall switch located at the front door.

Replace the light fixture in the closet with a flourescent fixture.

Bathroom – Replace the receptacle at the vanity with a gfci protected receptacle. Install a ceiling mounted combination light /ventfan. Light and fan must be individually controlled by separate wall switches.

South-east bedroom – Install ONE (1) additional wall receptacle on the north wall, east of entry door.

South-west bedroom – Install ONE (1) additional wall receptacle on the east wall, south of entry door.

Central bedroom – Install ONE (1) additional wall receptacle on the east wall, north of entry door.

Smoke detectors – Install FOUR (4) U.L approved hardwired smoke detectors with battery back-up, wired in series. Locate ONE (1) in each bedroom and the hallway.

CO detector – Install ONE (1) U.L approved hardwired, with battery back-up CO detector on the west wall of the livingroom.

Exterior – Install THREE (3) gfci protected receptacle, with weather resistant covers. Locate at location of the two (2) existing receptacles at front of home and one (1) at the rear of home.

ALL electrical work must be performed by qualified electrical technician(s) and conform to NEC.
