Thomas L. Bischoff

Dear Warren:

On January 6, 1992, the sanitary sewer tap serving the residence at 1689 Oakwood Avenue developed sewer problems.

Upon the home owners investigation, it was verified by the City's personnel that the sewer repair made by your firm had settled and the pipe sheared apart at the Fernco coupling.

Since the project is still under the one (1) year warranty period, we will be sending all claims to your office.

Lastly, we would like you to review the yard areas along Oakwood Avenue because we now have two (2) Councilmen along this route that are still not happy with the end product and we concur. Please let us know what your sub-contractor intends on doing.

If you have any further questions, please call.

Respectfully,

Marc S. Gerken, P.E.  
City Engineer
