Memorandum

To: Finance & Budget Committee, Council, Mayor, City Manager, City Law Director, City Finance Director, Department Supervisors, Media

From: Gregory J. Heath, Clerk of Council/Finance Director

Date: 4/24/2014

Re: Finance & Budget Committee Meeting Cancellation

The Finance & Budget Committee meeting, regularly scheduled for Monday, April 28, 2014 at 6:30 PM has been CANCELED due to lack of agenda items.

Memorandum

To: Safety and Human Resources Committee, Township Trustees, Council, Mayor, City Manager, City Law Director, City Finance Director, Department Supervisors

From: Gregory J. Heath, Finance Director/Clerk of Council

Date: 4/24/2014

Re: Safety and Human Resources Committee Meeting Cancellation

The Safety and Human Resources Committee meeting scheduled for Monday, April 28, 2014, at 7:30 PM has been CANCELED due to lack of agenda items.

Memorandum

To: Parks & Recreation Board, Council, Mayor, City Manager, City Law Director,
City Finance Director, Department Supervisors

From: Gregory J. Heath, Finance Director/Clerk of Council

Date: 4/24/2014

Re: Parks & Recreation Board Meeting Cancellation

The regular meeting of the Parks & Recreation Board, scheduled for Wednesday, April 30 at 6:30 PM, has been CANCELED due to lack of agenda items.

To All,

I spoke with Rex regarding the wetland issue and it sounds like it was never delineated when Cygnet Homes owned the property. He met with Mannik and Smith yesterday to discuss. They are drafting up a proposal with all cost related to determine if this indeed a jurisdictional wetland for the ACOE or an isolated wetland for the EPA. This proposal is being sent to the HCRW&SD on behalf of all the entities and the 5000+ customers. Also, sounded like the previous owner had a permit to move forward with the property but never did. They were going to purchase in the land bank and some onsite wetlands as part of the project.

Jon Bisher did hear back from the EPA today but they are still talking deliberating on what action they will require.

There were 2 areas of concern from the EPA. The first being the manganese and iron results from the pilot study. EPA is not real familiar with the treatment process for iron and manganese. They are familiar with the Bowling Green WTP and how they are trying to deal with these ores. There may have to be additional data collected for the treatment. Jon is meeting with the Director of Utilities for BG.

The other are of concern is the use of the Wauseon reservoir, or little use. The EPA was under the impression that Napoleon used the reservoir quite often. This is not the case. Additional testing may be required for this reservoir source as well but yet to be determined.

This is what is known to date and if anything further comes up it will be forwarded on.

Thanks,

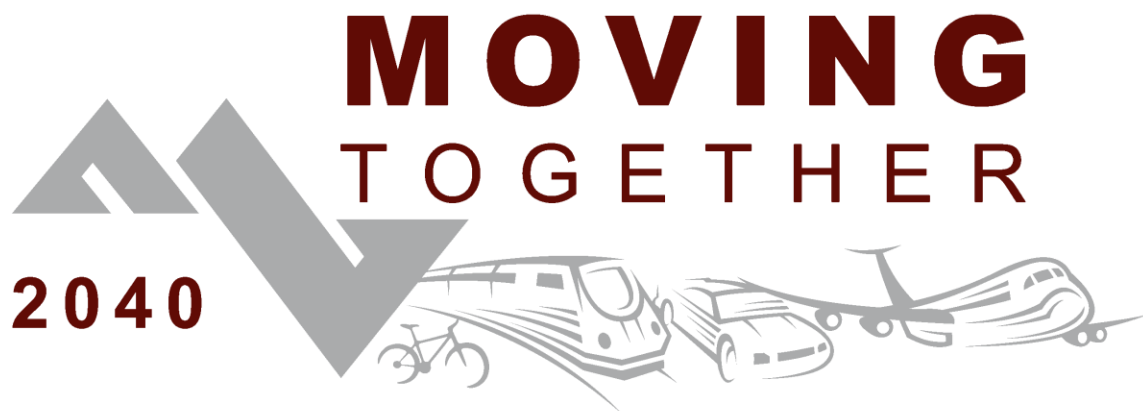

Nick

HENRY COUNTY NEWS RELEASE

Maumee Valley Planning Organization (MVPO) will hold a public meeting on the development of a Rural Long Range Regional Transportation Plan for the five counties, Defiance, Fulton, Henry, Paulding, and Williams Counties. The public meeting for Henry County will be held on Wednesday May 14th at the Emergency Management Agency, Henry County Office Complex, 1847 Oakwood Ave., Napoleon. Doors will open at 6:00 pm with a presentation at 6:30 pm followed by a question and answer period.

The public is encouraged to attend this public meeting to learn more and provide input into the Rural Transportation Plan, Moving Together 2040. Topics to be discussed include existing traffic volumes, crashes, bridge conditions, rail crossings and train characteristics, environmental issues, recreational trails, population areas including age and environmental justice areas and other areas pertaining to transportation and planning for the region.

The public is also encouraged to visit the MVPO website, www.mvpo.org, for updated information to the plan and to provide comments during the planning process, or provide written comments to Maumee Valley Planning Organization, 1300 E. Second Street, Defiance, OH 43512

2015 – 2040 Transportation Plan

PUBLIC MEETING

WEDNESDAY, MAY 14

Doors open at 6:00 p.m.

Meeting at 6:30 p.m.

Emergency Management Agency

Henry County Office Complex, 1847 Oakwood Ave., Napoleon

Help shape the future of transportation in your County!

SCHEDULE FOR SPRING SEASONAL PICK UP

April 28 through May 2, 2014

The following General Rules and Regulations shall be effective for the April 28 – May 2, 2014 Spring Seasonal Clean Up:

1. MATERIALS MUST BE IN CONTAINERS AND KEPT DRY.
2. NO CONTAINERS LARGER THAN THIRTY (30) GALLONS, OR WEIGHING MORE THAN 50 LBS.
3. ALL UNMARKED CONTAINERS WILL BE CONSIDERED AS LEFT FOR DISPOSAL.
4. ALL MATERIAL MUST BE COVERED DURING RAIN OR STRONG WIND TO AVOID WETNESS AND BLOWING.
5. ALL BUILDING MATERIAL SHALL NOT BE LARGER THAN FOUR FEET (4') IN LENGTH AND THREE FEET (3') WIDE . ALL LOOSE ITEMS MUST BE BOXED OR BAGGED. THE WEIGHT OF SUCH CONTAINERS SHALL NOT EXCEED 50 LBS. CARPETING OR PADDING SHALL BE IN ROLLS NO WIDER THAN FOUR FEET (4') AND TIED WITH A CORD.
6. NO MATERIAL SHALL CONTAIN NAILS THAT HAVE NOT BEEN BENT OVER.
7. IT IS PROHIBITED TO HAVE ROCKS, BRICKS, CONCRETE BLOCKS OR PLASTER WEIGHING IN EXCESS OF 50 LBS.
8. IT IS PROHIBITED TO MIX REGULARLY SCHEDULED REFUSE WITH MATERIAL SCHEDULED FOR THIS PICK UP
9. IT IS PROHIBITED TO PLACE FOR PICKUP BRUSH, LIMBS, OR OTHER YARD WASTE MATERIAL.
10. IT IS PROHIBITED TO PLACE FOR PICK UP LIQUID WASTE, INCLUDING BUT NOT LIMITED TO: PAINT, HOUSEHOLD CHEMICALS, USED MOTOR OIL, ANTIFREEZE, AND TAR. HOUSEHOLD CHEMICAL CONTAINERS AND PESTICIDES MUST BE RINSED PRIOR TO PLACEMENT FOR PICKUP AND WHEN APPLICABLE, IN ACCORDANCE WITH PRODUCT LABELING INSTRUCTIONS (TRIPLE RINSE FOR PESTICIDES).
11. PAINT CANS OR TAR BUCKETS MUST HAVE THE LIDS REMOVED AND REMAINING PAINT OR TAR COMPLETELY DRY. PAINT WILL BE ACCEPTED IN THE FOLLOWING WAYS: (i) WOOD OR CARDBOARD MAY BE PAINTED TO USE UP THE REMAINING PAINT; OR, (ii) CAT LITTER OR FLOOR DRY MAY BE USED TO MAKE THE PAINT A THICK PASTE; THEREAFTER, SO LONG AS THE CONTAINER IS DRY, THE MATERIAL MAY BE INCLUDED FOR PICKUP.
12. ALL REFRIGERATORS AND/OR FREEZERS MUST HAVE THE DOORS REMOVED AND THE CONTENTS EMPTIED PRIOR TO PLACEMENT FOR PICKUP.
13. WHITEWARE SHALL BE TAGGED IN ACCORDANCE WITH APPROVED TAGS AND AMOUNTS AS ESTABLISHED BY THE CITY. TAGS FOR REFRIGERATORS AND/OR FREEZERS MUST BE ON THE UNIT AND NOT ON THE REMOVED DOOR.
14. ANY ITEMS NOT PROPERLY TAGGED OR PLACED FOR PICKUP, IN A MANNER THAT APPEARS TO BE INTENDED FOR PICKUP, SHALL BE DEEMED AUTHORIZED BY PICKUP AND WILL BE TREATED BY THE CITY AS A "SPECIAL PICKUP" WITH CHARGES BEING ACCORDINGLY ASSESSED.
15. ***MATERIAL OR OTHER ITEMS PLACED FOR PICK UP SHALL BE AT THE CURB NO MORE THAN FIVE (5) DAYS IN ADVANCE OF THE SUBSCRIBER'S SCHEDULED SEASONAL PICK UP DAY. ITEMS PLACED AT THE CURB EARLIER THAN FIVE (5) DAYS IN ADVANCE OF THE SCHEDULED PICK UP DAY WILL BE TREATED BY THE CITY AS A "SPECIAL PICKUP" WITH CHARGES BEING ASSESSED TO THE SUBSCRIBER OR PERSON RESPONSIBLE FOR PLACEMENT.***

The City shall require the use of City *Refuse Tags* to cover the disposal cost of the following items:

- | | |
|-------------------------|--------|
| 1. Whiteware with Freon | 5 tags |
| 2. Air Conditioner | 5 tags |
| 3. Passenger Car Tire | 1 tag |
| 4. Semi-Truck Tire | 4 tags |
| 5. Tractor Tire | 6 tags |

*The City of Napoleon, in cooperation with Zack's Recycling, will again accept used **computers, printers, and keyboards** as part of this year's "spring seasonal clean up". Please set the equipment out apart from your regular material. A separate truck, which picks up recyclable materials, will stop and collect the electronics for proper recycling. **Monitors are to be placed with regular pick up items.***

ALL RULES AND REGULATIONS, ALONG WITH ANY ACCESSED CHARGES, WILL BE ENFORCED. All materials are to be at the curb by 7:00 a.m. the morning of your pick up. Return trips will not be made for items set out late.

Any questions regarding the guidelines should be directed to the City of Napoleon Operations Department at 599-1891.

April 8, 2014

Dear Ohioan:

For the upcoming May 6, 2014 Primary Election, Ohio voters will choose candidates for a number of statewide and local offices. Ohioans will also have the chance to vote on one Statewide Ballot Issue:

- Issue 1 – Proposed Constitutional Amendment: To Fund Public Infrastructure Capital Improvements By Permitting The Issuance Of General Obligation Bonds

As Secretary of State and Chairman of the Ohio Ballot Board, I want to ensure information about these important issues is available and accessible to all Ohio voters and am seeking your help in this endeavor.

The **2014 State Issues Report**, which includes the official ballot language, explanation, arguments for and against and the full text of the issue, is now posted prominently on the Secretary of State's website at www.OhioSecretaryofState.gov (click on the "What's on the Ballot" button at the bottom of the home page). The Secretary of State's website is also a resource for information on absentee voting, voting early in person and Election Day procedures.

I encourage you to direct interested voters to this web page and, if possible, to include a link to the *2014 State Issues Report* on your own website. For your convenience, you can use this Issues Report widget (available at www.sos.state.oh.us/SOS/agency/about/Widgets.aspx) on your website.

State Issues Information
Primary Election
May 6, 2014

Jon Husted

Simply copy and paste the code to create a custom button that will stand out to Ohio voters who may be visiting your website from now through the election. We also encourage you to share the State Issues Information link through social media and to follow the Secretary of State's social media accounts (OhioSOSHusted on Facebook and Twitter) for future elections updates.

If we can provide additional information or assistance, please contact us at 1-877-767-6446 or info@OhioSecretaryofState.gov.

Thank you for all you do to promote civic involvement and an informed electorate.

Sincerely,

Jon Husted
Ohio Secretary of State

UPdate

A weekly newsletter presented by AMP President/CEO Marc Gerken

April 18, 2014

AMP inducts 2014 Honoree Gene Post into the Wall of Fame during a ceremony on April 16 in Columbus. Pictured (from left) are: Bill Lyren, Gene Post, George Pofok and Marc Gerken.

AMP inducts Post in Wall of Fame

By Marc Gerken, PE – president/CEO

Gene Post, AMP's 2014 Wall of Fame Honoree, was recognized by AMP's Board of Trustees and executive management with an induction ceremony and reception on April 16 at AMP headquarters in Columbus.

It is clear that Gene has been a dedicated supporter of public power and a valuable part of AMP's efforts to assist members' reliability efforts.

"Gene is the first one on this wall that was an operations worker, out there in the trenches making the rest of us look good and for that we really appreciate Gene's efforts," said George Pofok, former commissioner of Cleveland Public Power, former AMP Board chair and 2012 Wall of Fame honoree.

AMP created the Wall of Fame in 2010 to honor and recognize those individuals who have made significant contributions to the organization and to public power.

Gene retired from City of Wadsworth Electric & Communications in 2013. He had 40 years of experience in the electric and communication industry with Wadsworth, holding the positions of apprentice lineman, journeyman lineman, line crew leader, assistant superintendent, superin-

see WALL OF FAME Page 2

Gross is newest member of AMP's Billing Department

By Tom Sillasen – director of energy accounting & reporting

Mitch Gross, who has been working in a temporary capacity for about six months, joined AMP's Billing Department in a fulltime capacity this week as senior energy accounting analyst. He will be responsible for the timely and accurate processing of member power invoices, as well as helping maintain the integrity of AMP billing programs.

Mitch Gross

Gross came to AMP from Worthington Industries, where he held several positions – most recently as an internal auditor. A certified public accountant, he holds bachelor's, master's and law degrees from Ohio State University.

Please join me in welcoming Mitch to the AMP team.

Energy markets close higher this week

By Craig Kleinhenz – manager of power supply planning

Natural gas has finally entered into the season of injecting gas into storage (as opposed to taking it out). The injection numbers this week were smaller than expected and caused the year-over-year deficiency to continue to widen. This news sent natural gas and electric prices higher.

May natural gas prices ended the week up \$0.09/MMBtu from last week to finish trading yesterday at \$4.74/MMBtu. 2015 on-peak electric prices rose \$0.23/MWh for the week with AD Hub closing at \$44.47/MWh.

tendent, and general manager. Gene served AMP as Gold Sector Mutual Aid Coordinator for 15 years, and chair of the Mutual Aid Committee for 10 years. He was also an excellent resource for the American Public Power Association in its efforts to coordinate mutual aid programs nationally.

"Over my 40 years with the city, one of the best decisions I ever made was in 1974 when I offered a job to Gene Post," said William Lyren, former Wadsworth director of public service, former AMP Board chair and 2011 Wall of Fame honoree. "Luckily for me, the City of Wadsworth and this organization, he took the job."

Current Wadsworth Director of Public Service and AMP Board member Chris Easton also commented, "I had the good fortune to work with Gene Post for about 10 years. In his capacity as manager of electric and communications, Gene demonstrated an outstanding work ethic, fierce loyalty to Wadsworth and public power and unmatched dedication to the customer."

Gene's commitment, knowledge and professionalism are missed not only in Wadsworth, but here at AMP as he truly left a positive legacy with both organizations. Congratulations, Gene, for this well-deserved honor.

Joint Purchase Program price results have been mailed

By Jennifer Flockerzie – technical services program coordinator

The price results from American Municipal Power's Joint Purchasing Alliance Program are in and have been mailed to AMP members that participated in the program. Members that did not turn in quantity sheets for the 2014 Joint Purchase are welcome to contact AMP for pricing of the following items:

- Poles (Western Red Cedar, Southern Yellow Pine, and Douglas Fir of various sizes and classes)
- Pole-mount transformers (10, 15, 25, 37.5, 50, and 100 kVA)
- Padmount single-phase transformers (25, 50, 37.5, and 100 kVA)
- Padmount three-phase transformers (112.5, 150, 225, 300, 500, and 1500 kVA)
- Conductor (primary overhead, primary underground, secondary overhead and secondary underground of various types and sizes, and streetlight)
- 100 AMP Poly Chance cutouts and cutout load breaks

To receive information and price results please contact me at 614.540.0853 or jflockerzie@amppartners.org.

Pole attachment webinar

OMEA will offer a webinar providing an overview of the recent pole attachment agreement impacting Ohio municipal electric systems at 8:30 a.m. April 24. For log-in information please contact Michael Beirne at 614.540.0835 or mbeirne@amppartners.org.

AEP/Dayton 2015 5x16 price as of April 11 — \$44.24

AMP communities benefit from APPA membership

By Jolene Thompson – senior vice president & OMEA executive director

AMP members new to the American Public Power

Association (APPA) should have received an email earlier this month from the association on services available.

As of January 2014, AMP is covering the annual dues for its members to belong to APPA. AMP understands the many benefits of APPA membership and therefore wants to extend these benefits to all of its members. AMP members voted at the general membership meeting during the 2013 AMP/OMEA Conference in October to support AMP including the cost of annual dues in Service Fee A. This eliminates the need for members to pay separately for their APPA participation.

AMP is a long-time, active member of APPA with a number of AMP's executives and Board members serving in leadership capacities with the association.

In addition to covering APPA membership costs for its members, AMP is also covering the cost of membership in public power's research and development program, Demonstration of Energy and Efficiency Developments (DEED).

For more information on the benefits of APPA and DEED, please visit www.publicpower.org and www.publicpower.org/DEED.

AFEC weekly update

By Craig Kleinhenz

AFEC continued another week of steady generation. The plant operated at base maximum levels during morning and evening peak hours most days this week. The plant was dispatched offline last weekend due to low market prices and then returned online Monday morning.

The plant was also dispatched offline during the overnight hours on Monday. Duct burners were only used two hours on Wednesday and Thursday morning. The plant ended the week with a 46 percent load factor (based on 675 MW).

Meet 'The Throwback Kid' on new Public Power TV episode

Provided by the American Public Power Association

Cody Leitner has been an apprentice lineworker for three years. The 22-year-old decided to follow in the footsteps of his father and grandfather, who both had jobs climbing poles.

Leitner, who hails from Westerville Electric in Westerville, Ohio, was one of 94 apprentices to compete in the 2014 APPA Lineworkers Rodeo early this month, and placed third in the Alley Arm Insulator Change Out.

Learn more about how Leitner got to the rodeo, and his journey while he was there, in a video on Public Power TV, "[The Throwback Kid: An apprentice at the rodeo.](#)"

AMP to offer additional Basic 1 training course this spring

By Jennifer Flockerzie

Due to member demand, AMP is offering an additional Basic 1 lineworker course May 19-23. Designed to serve as a supplement to in-house training, the Basic 1 course includes book work and hands-on training – covering the basic skills needed for entry-level line work. The class provides an introduction and practice to climbing skills, as well as basic electrical theory, applied mathematics, first aid, safety, transformer basics and other introductory skills.

The schedule for AMP's lineworker series is listed below. The Intermediate course is already full, but we have started a waiting list. Groundworker training is available upon request.

- Basic 1: May 19-23
- Basic 1: June 2-6
- Basic 2: Sept. 8-12
- Intermediate: June 16-20
- Advanced: Sept. 22-26

The class fee for 2014 is \$1,000 per person per week. Please contact me at jflockerzie@amppartners.org or 614.540.0853 with questions, for more information, or to be added to the Intermediate waiting list. The AMP 2013-14 Training Catalog is available on the Member Extranet section of the [AMP website](#).

Trends in Sustainability

By Julia Blankenship – director of energy policy & sustainability

The Obama Administration's goal of reducing GHG emissions by 17 percent below 2005 emission levels by 2020 could be severely hampered by the announced early closure of a number of large nuclear power plants, primarily for economic reasons. Regulatory uncertainty, costly mechanical repairs, and low natural gas prices have all contributed to the decisions by nuclear plant owners to retire their plants before their licenses expire, forego costly refurbishments, or cancel major expansions. *PO-LITICO* reported in March that Exelon Corp. in particular – the nation's largest nuclear operator – is facing some difficult decisions regarding its six nuclear plants in Illinois, each of which failed to make a profit in the last five years, according to the *Chicago Tribune*.

Not long ago, the U.S. nuclear industry was looking at a renaissance prompted by a carbon-constrained economy and promising new modular designs that would result in streamlined permitting and licensing and lower costs for power. Instead, Cap and Trade legislation failed and cheap natural gas made even lower-cost nuclear uneconomic. The nuclear industry also points to competitive wholesale electric markets in various regions that are currently pricing nuclear generation out of the market.

In 2013, Southern California Edison decided to close its 2,150 MW San Onofre station. For some in the environmental community, the outcome provided conflicting results. California regulators last month approved replacing 1,500 MW of San Onofre's power – with 600 MW coming from renewables and energy efficiency and up to 900 MW from natural gas, creating a net increase in carbon emissions.

Danville seeks utilities director

The City of Danville (43,000) seeks an energetic, proactive, creative leader to manage Danville Utilities, a municipal provider of electric, gas, water, wastewater, and telecommunications services in a 500-square mile territory. Appointed by and reporting directly to the city manager, the utilities director is responsible for leading a progressive organization that delivers exceptional customer service, operates effectively and efficiently, maintains a world class workforce, contributes to developing Danville's new economy, and meets environmental and community responsibilities.

Danville Utilities serves 42,000 electric meters, 16,000 gas meters, and 18,000 water meters. Its open access fiber optic telecommunications system serves 200 municipal, school, and business locations. Fiber-to-the-neighborhood deployments are now underway. The Utilities Department employs 174 and operates on a \$166 million annual budget. A City Council-appointed Utility Commission provides policy oversight.

Position requires a bachelor's degree in engineering, public administration, business, or related field; masters degree in public or business administration is preferred. Extensive experience in utilities, public works, or local government management is required.

Salary range: \$102,824 - \$120,000 DOQ, plus generous fringe benefits package. Visit our website to apply online www.danville-va.gov. Attach cover letter, detailed resume, credentials, and salary history. Position will remain open until filled. City Residency is required. All submissions are confidential. For additional information on Danville Utilities, please visit <http://www.danvilleutilities.com>. Equal Opportunity Employer.

Oberlin accepts applications for journeyman lineworker

The Oberlin Municipal Light and Power System (OMLPS) is accepting applications for the position of fulltime Journeyman Lineman in the Electric Distribution Division.

Duties include being responsible for the operation, maintenance and routine construction of the City's municipal electric distribution system. Constructing, maintaining and repairing energized primary and secondary distribution facilities. Operating aerial lift trucks, heavy equipment and distribution test equipment. Participating in emergency standby rotation.

Minimum qualifications are a high school diploma or equivalent. Valid Ohio Driver's License and Class "A" Commercial Driver's License. Successful completion of lineworker apprenticeship program with four years of experience as an apprentice lineman. Journeyman Lineworker Certification.

Hourly Salary Range: \$23.36 - \$29.20/hour D.O.Q. Applications are available at www.cityofoberlin.com and at

Oberlin City Hall, 85 S. Main St., Oberlin, OH 44074. Applications should be returned via email to hr@cityofoberlin.com or mailed to: City of Oberlin Human Resources Department, Oberlin City Hall, 85 S. Main Street, Oberlin, Ohio 44074. Closing date is April 28, 2014 at 4:30 p.m.

The City of Oberlin is a Drug-Free Workplace and an Equal Employment Opportunity employer.

Village of Minster is seeking electrical lineworker

The Village of Minster has an immediate opening for a lineworker in its Electrical Department. A first class or journeyman lineman is the preferred level of knowledge, skill, and ability; however, the village will consider those with some level of training and/or experience in the electrical field.

Successful candidates must have a high school diploma or GED; valid CDL driver's license with a minimum of a Class B endorsement; mechanical knowledge and knowing how to operate equipment such as an aerial bucket truck, digger derrick truck, backhoe, skid loader and power tools, preferred.

The selected candidate must, within six months of notice of employment, reside within 20 minutes driving time distance to the village. The successful candidate, if less experienced, must learn to climb poles, work out of and operate a bucket truck and use other relevant tools and equipment.

Minster offers an attractive wage and comprehensive benefit package as well as a workplace with an emphasis on quality and teamwork. Salary is commensurate with experience.

Applications are available at the Village of Minster Administration Office, 5 W. Fourth St. or online at www.minsteroh.com. Please submit a completed job application and resume by April 27, 2014 to Village Administrator, Village of Minster, P.O. Box 1, 5 W. Fourth St., Minster, Ohio 45865.

Applications and resumes submitted to the village are public records and will be released to members of the public if they are requested. The village will contact the current employer of an applicant only if that applicant is a finalist in the selection process, and will only make such contact after notifying the applicant. EOE/ADA.

Columbus holds open exam for power lineworker

The City of Columbus Department of Public Utilities is seeking qualified candidates for the position of Power Line Worker II. To apply, one must first take the open-competitive examination. Applications may be submitted to the Civil Service Commission by applying online at www.csc.columbus.gov by April 23, 2014. Applicant

tracking is now managed by NEOGOV. If you have submitted a profile in the past, you will have to submit a new one through NEOGOV.

This position will be responsible for installing, repairing, and replacing components of the overhead power line distribution system. To qualify you must have two years of experience as a Power Line Worker I with the City of Columbus or comparable experience. Substitution: successful completion of a formal training program in power distribution may substitute for six months of the required experience. Possession of a valid Class A driver's license with air brake endorsement is required. Salary: \$45,926.40 - \$71,822.40. Please contact Lindsay Robinson at 614.645.5802 with questions. EOE.

Borough of Ephrata seeks electric system superintendent

The Borough of Ephrata is seeking candidates for the position of fulltime Electric System Superintendent.

The electric system superintendent is responsible for directing and managing skilled individuals involved with the operation and maintenance of a public power electrical distribution system. The electric system superintendent will direct the day to day activities, preventative maintenance, and multi-year capital projects of the borough's electrical distribution systems in order to provide operations that are safe, cost effective, and reliable. The electric system superintendent will be expected to interact with the customers of the system on a regular basis to ensure safety and sound practices are employed throughout the electrical distribution system.

To be considered for this position, candidates must have at least 10 years of experience in the electric utility industry, a minimum of five years supervisory experience and a proven track record of achieving results. A thorough working knowledge of line work, electric distribution, substations, and high voltage systems (up to 69kv) is essential. A bachelor's degree in electrical engineering or engineering technology, or related field, from an accredited college or university is preferred, however, relevant practical experience in lieu of a bachelor's degree will be considered.

Other requirements include:

- Class B motor vehicle license or ability to obtain within six months
- Must be able to work weekends and holidays
- Ability to respond to a call out within a timely manner (approximately 30 minutes)
- Above average leadership and communications skills
- Computer skills; Excel and Word preferred

The borough offers an attractive wage, comprehensive benefit package and a workplace with an emphasis on quality and teamwork.

Complete an application at the borough or send a resume to: Human Resources Dept, Borough of Ephrata, 124 S. State St., Ephrata, PA 17522 or skramer@ephrataboro.org. Visit the website at <http://ephrataboro.org/>. Application deadline is April 30, 2014. EOE M/F/D/V

AMP is seeking applicants for open positions

American Municipal Power, Inc. (AMP) is seeking candidates for three positions: **Senior Engineer-Mechanical, Chief Electrical Engineer, and Circuit Rider.**

The senior engineer-mechanical position is responsible for safe mechanical operations and maintenance of all generation assets as well as project engineering and generation development. A four-year degree in mechanical engineering is preferred (or related engineering discipline). Professional Engineering Registration is a plus. At least 10 years of experience in engineering, or engineering related type work is preferred. Five years electrical generation experience is required and Municipal Electric system experience is a plus.

The chief electrical engineer position is responsible for instituting safe electrical operations and maintenance of all generation assets as well as project engineering and generation development. Successful candidates will have a bachelor of science degree in electrical engineering. Five years electrical generation experience is required with at least 15 years of experience in engineering or engineering-related work. Professional Engineering Registration and municipal electric system experience are a plus.

The circuit rider position serves as a trainer and technical adviser to member communities for the Circuit Rider program, safety programs and special projects, and assists with the centralized administration of the Mutual Aid program. Successful candidates must have a high school diploma (two-year technical degree desirable), be a journeyman lineworker, have a minimum of two years management experience, have a CDL license, be willing to travel approximately 75 to 80 percent of the time, have a working knowledge of OSHA regulations, be CPR certified, have public speaking experience, and domiciled in the Northwest Ohio area. Experience in a municipal environment is strongly preferred.

For complete job descriptions or to apply, please visit www.amppartners.org under "careers" or email to ttucker@amppartners.org. Deadline to apply for all three positions is April 25, 2014.

Lineworkers needed in Beach City

The Village of Beach City has openings for an experienced Lineworker-Utility Worker and an Apprentice Lineworker in its electric utility.

Successful candidates will meet the following qualifications: high school diploma or GED, two year Trade School, Journeyman Certification, Commercial Driver's License (CDL) with a Class B Endorsement or must be obtained within six months of hire. Employee will be on call 24/7 approximately every other week to respond to outages or problems. Village Lineman-Utility Workers are also expected to perform duties in area such as water, wastewater, tree trimmings, streets and park maintenance.

nance. This is an inherently hazardous and physically demanding job.

Candidate must be willing to work in all kinds of weather conditions. Position pay scales: \$19.00 per hour to \$23.00 per hour for a journeyman lineworker and a five year apprenticeship program starting at \$14.95 for the apprentice, both depending on qualifications. Beach City offers a comprehensive benefit package. Applications available at Village of Beach City, 105 E. Main St., Beach City, Ohio 44608 or via email to: utilities@beachcity.org. Applications will be accepted until 4:30 p.m. April 30, 2014. Beach City is an equal opportunity employer.

Village of Bradner is seeking village administrator candidates

The Village of Bradner is seeking qualified candidates for the position of village administrator. The village administrator is responsible for the day-to-day operations of the village, including operating and capital budgeting, zoning, street maintenance, water and wastewater utility operations, electrical distribution and project management. The village administrator will work closely with the mayor and council.

Candidates must have a bachelor's degree or equivalent and five years of management experience with demonstrated skills in utility operations, leadership, grant writing, economic development programs and community planning skills. Excellent communication skills, computer, problem solving, organizational and multi-tasking skills are also required. Work experience as an electrical lineman and/or holding a lineman's license or certification is a plus.

Interested candidates should submit a cover letter, resume, salary history and at least three professional references on or before May 1, 2014 to the Village of Bradner: Attn: Mayor Virgil Shull, Jr., PO Box 599, Bradner, Ohio 43406. The Village of Bradner is an Equal Opportunity Employer.

Bradner accepts applications for electrical lineworker

The Village of Bradner is accepting applications for a qualified fulltime electrical lineworker position. Candidates must possess a high school diploma, seven years general electrical utilities experience, workable knowledge of transmission, distribution lines and substations, and the ability to respond to necessary field work on a daily and emergency basis. Water and waste water experience is preferred but not necessary.

A valid driver's license is required. Class A CDL with air brake endorsement is required or must be obtained within six months of hire. This position will report to the Utility Superintendent.

Salary commensurate with experience plus an excellent benefits package. Applications and position descriptions are available at the Village offices, located at 130 N. Main St., Bradner, OH 43406 or by contacting the Fiscal Officer at 419.288.2890. The Village of Bradner is an Equal Opportunity Employer.

Cuyahoga Falls holds open exam

The City of Cuyahoga Falls has given notice that the Cuyahoga Falls Civil Service Commission will administer a written examination for the following position: Police Officer (Open – Competitive Exam) at 6 p.m. May 13 in the Cuyahoga Falls High School Cafeteria, 2300 Fourth St., Cuyahoga Falls, OH 44221. Registration will begin at 5 p.m. A valid driver's license or state issued ID must be presented on the evening of the examination.

For a full description, visit <http://cfo.cityofcf.com/web/departments/human-resources/job-postings>.

Visit www.cityofcf.com to print applications. Applications are also available at the City Building, 2310 Second Street, Cuyahoga Falls, OH 44221 from 8 a.m. to 5 p.m. weekdays.

In order to be eligible to register and take the exam: 1) Completed application, 2) \$25 fee, 3) a copy of DD-214 if applicable, must be submitted to Civil Service Office either in person or by mail, postmarked no later than April 30, 2014.

Schuylkill Haven in need of journeyman electric lineworker

The Borough of Schuylkill Haven is accepting applications for a journeyman electric lineman position.

A complete job description and job application can be obtained by contacting the borough office at 570.385.2841 or by logging on to the Borough's website www.schuylkillhaven.org.

Please submit a completed job application, resume, certifications and three references to: Scott J. Graver, Borough Administrator, Schuylkill Haven Borough Office, 12 W. Main St., Schuylkill Haven, PA 17972.

Municipal electric systems assess vulnerability to Heartbleed

By Josh Thompson – security and disaster recovery administrator

Cybersecurity is back in the spotlight with the Heartbleed bug being publically disclosed earlier this month. The vulnerability lies with the encryption library known as OpenSSL, which is widely used in web and email servers, network infrastructure, VPN gateways and embedded devices. According to Internet research firm, Netcraft, about 500,000 sites have been affected.

AMP, along with organizations such as the American Public Power Association (APPA) and the North American Electric Reliability Corp. (NERC), is working to develop solutions for utilities to protect against vulnerability. The Electricity Sector Information Sharing and Analysis Center (ES-ISAC) issued an industry advisory on April 11 related to Heartbleed.

AMP recommends the follow actions for systems regarding Heartbleed:

- Thoroughly assess the products that rely on the OpenSSL library
- Contact vendors and have product version numbers available to see if the product is vulnerable
- Use testing tools available online (remember that some of these could potentially expose confidential information if vulnerable)
- Use Metasploit or Chromebleed tool for checking websites
- Check DMZ systems and web servers facing the public Internet
- If systems are vulnerable, they should be disconnected until patched
- Cover user systems and mobile devices (lower risk) – Android most exposable
- Change passwords on the websites that were vulnerable

Please feel free to contact me with questions or for more information at 614.540.6920 or jthompson2@amppartners.org.

Piqua Municipal Power System to host AMP Regional Safety Meeting on May 21

By Michelle Palmer – assistant vice president of technical services

The next AMP Regional Safety Meeting will be held May 21 at Piqua Municipal Power System, 201 Hemm Ave., Piqua, OH 45356.

Sandi Sherwood, senior safety/OSHA compliance coordinator, will speak on Emergency Action Plans; and Kyle Weygandt, director of member safety, will discuss dealing with violence in the workplace.

The meeting is free to members and lunch will be provided. Reservations are required for lunch count. Please RSVP by May 16 to Jennifer Flockerzie at 614.540.0853 or jflockerzie@amppartners.org, or Kyle Weygandt at 330.323.1269 or kweygandt@amppartners.org.

Longer-term prices continue to rise

By Craig Kleinhenz – manager of power supply planning

After several consecutive weeks of smaller than expected injections of natural gas into storage, this week's storage number finally came in slightly above forecast. This news was enough to help send next month's natural gas prices slightly lower.

May natural gas prices ended the week down \$0.04/MMBtu from last week to finish trading yesterday at \$4.70/MMBtu. June natural gas prices are currently trading just \$0.02/MMBtu higher than May finishing yesterday at \$4.72/MMBtu.

This news was not enough to overcome the concerns about how far storage levels are below normal (48 percent below last year's levels). This has caused future prices to continue to climb. 2015 on-peak electric prices rose \$1.14/MWh for the week with AD Hub closing at \$45.61/MWh. These prices are up over \$4.00/MWh or 10 percent from this time in March.

AFEC weekly update

By Craig Kleinhenz

Lower loads due to mild weather led to AFEC seeing varied production this week. On April 18 the plant was online all day, seeing base maximum production during the morning hours. The plant was then dispatched offline for the entire weekend and returned Monday morning.

Weekdays this week saw the plant operating at base max for most of the daytime hours, but dispatched offline during the overnight hours (with the exception of the plant staying online Wednesday night into Thursday morning). Duct burners were only used nine hours this week, on Wednesday and Thursday. The plant ended the week with a 43 percent load factor (based on 675 MW).

AMP Finance & Accounting Subcommittee meets in Hamilton

By Joe Regan – member credit compliance analyst

Hamilton hosted the AMP membership on April 24 for an AMP Finance & Accounting Subcommittee meeting.

Jeff Klein, with Kensington Capital Advisors, started off the meeting with a presentation on bond proceeds investments. Specifically, Klein covered the decision process that AMP must go through when investing bond proceeds and how to maximize the return while still being aware of the arbitrage limitations on earnings.

Dawn Lund, vice president of Utility Financial Solutions, followed Klein with a discussion on cost of service challenges and solutions.

Lund was followed by Dan Hyland, assistant vice president of enterprise fraud at Huntington National Bank, who discussed protection from fraud and cyber fraud in municipalities.

Following lunch, AMP Financial Analyst Maggie Ndovigibbs discussed AMP's "On-Behalf of" financing program and Andy Blair, AMP's assistant vice president-quality systems, then discussed the concept behind AMP's power invoices.

Chris Deeter, AMP's assistant vice president of finance & member credit compliance, finished out the day with "Financial Soundness: The Economy and your Municipality."

The next Finance & Accounting Subcommittee meeting will be held May 15 in Montpelier. All interested parties from municipalities are invited.

Please RSVP to either Joe Regan at 614.540.6913 or jregan2@amppartners.org, or Chris Deeter at 614.540.0848 or cdeeter@amppartners.org.

Member Directory updated; Call for technical data continues

By Greg Grant – director of publications

The civic information for the online AMP Member Directory has been updated. As a reminder, AMP is seeking community technical data for the AMP Member Directory and annual reports. The data is also used for processing AMP Service Fee A and OMEA annual dues.

Thank you to those members who have already responded. If your community did not receive a form or if there are any questions, please contact me at 614.540.1067 or ggrant@amppartners.org.

The directory can be accessed from the Member Extranet section of the [AMP website](#). All the changes made to the directory since the last update are also available – detailed in a separate PDF document.

CFA re-elects Thompson to board

By Michael Beirne – assistant vice president government affairs & publications

Jolene Thompson, senior vice president of member services and external affairs & OMEA executive director, has been re-elected to the Consumer Federation of American (CFA) Board of Directors.

The CFA is an association of nonprofit consumer organizations that was established in 1968 to advance the consumer interest through research, advocacy and education. About 300 of these groups participate in the federation and govern it through the 29-member board.

As a member of the CFA board, Thompson learns valuable information on issues including communications, consumer protection and privacy, energy, financial services, agriculture, product safety, housing, and transportation.

For more information on the CFA, please visit <http://www.consumerfed.org/>.

Two positions open in Hamilton

The City of Hamilton, Ohio (pop. 63,000) is seeking candidates for Finance Director and Director of Information Technology.

Finance Director – Salary range: \$92,102-\$118,040 plus benefits. This at-will position reports to the City Manager, and is a key member of the City Manager's Executive Leadership Team. The finance director administers the financial affairs of the city, including the keeping and supervision of all accounts; the custody and disbursement of all city funds; investment of interim city funds; the preparation of budgets; the collection of taxes, fees, and assessments payable to the city; approval of expenditures; and the purchase, storage, and disbursement of supplies and materials needed by the city.

The position requires a bachelor's degree from an accredited college or university with major coursework in accounting, business administration, finance, or a closely related field and seven to ten years of management experience in accounting, finance, or management with a local government agency including significant knowledge of public finance administration and systems and GAAP governmental audit and local government taxation. An advanced degree with major course work in Finance, MBA, MPA, and/or certification as a CPA or CFA is strongly desired.

Director of Information Technology – Salary range: \$87,672-\$112,341 plus benefits. Under administrative direction, the director of information technology creates and guides the implementation of the overall information technology strategy for the city and performs work of considerable difficulty leading, planning, directing, and managing the activities of the Department of Information Technology. This classification is distinguished as being at the department head level and is accountable for setting the direction for city-wide technology strategy and directing and managing the Department of Information Technology.

Qualifications include a bachelor's degree from an accredited college or university with a major in management information systems, information technology, computer science, or a closely related field; and five years of progressively responsible information technology experience at the management level or above, two years of which were at the assistant director or director level; or an equivalent combination of education, training and work experience. MBA or an MPA advanced degree from an accredited college or university is desirable.

For both positions, candidates should send cover letter, resume, salary history and five business references in Word or PDF format to: Civil Service Dept., One Renaissance Center, 345 High St. First Floor, Hamilton, OH 45011 by email to: cspersonnel@ci.hamilton.oh.us or by fax to: 513.785.7037. The City of Hamilton is an EEO & AAE. Minorities and women are encouraged to apply.

Tipp City seeks city engineer

The City of Tipp City, Ohio is seeking a highly qualified individual to lead its Engineering & Service Departments. Incumbent retiring in May after 14-plus years in position. Tipp City is a public power community of approximately 10,000 population located along the I-75 corridor seven miles north of I-70/75 Interchange. Tipp City is known for its strong sense of community, excellent park and recreational facilities, historic downtown, and exceptional schools.

The ideal candidate will be a State of Ohio Registered Professional Engineer (PE) in civil engineering or related field with at least five years progressively responsible municipal engineering and management experience, preferably in the State of Ohio. Responsibilities include preparation of the department's annual operating and capital budgets; overseeing the Street, Park, and Engineering Departments, acts as LPA coordinator for ODOT projects, prepares RFP, RFQ, & technical specifications for projects, recommends equipment purchases, performs inspections, etc. This is a key position for overall City management and public policy development.

Salary range: \$75,785 to \$94,425 depending on experience and qualifications. Submit resume with cover letter to Bradley Vath, Acting City Manager, 260 S. Garber Drive, Tipp City, Ohio 45371-3116 or vathb@tippcity.net, until May 16, 2014.

Consulting engineer position open at Cleveland Public Power

Cleveland Public Power is seeking a Consulting Engineer. Typical tasks for this position include: performing distribution substation system planning studies inclusive of demand and energy requirement forecast, fault duty calculations, planning and laying out new distribution lines and substations; developing equipment specifications and evaluating RFP's for distribution engineering and construction services; managing distribution line and substations construction; and writing work orders for large commercial accounts and conducting system-wide protective.

Candidates should have a bachelor's degree in electrical engineering or closely related field from an ABET accredited four-year college or university (or equivalent as determined by the Ohio Board of Registration of Professional Engineering and Surveyors). A Master's Degree is preferred. Candidates must be registered as a Professional Engineer (PE) in the State of Ohio or if PE license is in another state, candidates must have applied for an Ohio PE license at the time of hire and obtain it within four months of the date of hire. Three years of full time paid experience in Distribution substation Engineering, GIS, and AutoCAD; five years is preferred.

All interested applicants should submit a cover letter and resume to Danyelle Conner, DPU Employment Services Manager, 1201 Lakeside Ave., Cleveland, Ohio 44114, or email dconner@clevelandwpc.com.

Oberlin accepts applications for journeyman lineworker

The Oberlin Municipal Light and Power System (OMLPS) is accepting applications for the position of fulltime Journeyman Lineman in the Electric Distribution Division.

Duties include being responsible for the operation, maintenance and routine construction of the City's municipal electric distribution system. Constructing, maintaining and repairing energized primary and secondary distribution facilities. Operating aerial lift trucks, heavy equipment and distribution test equipment. Participating in emergency standby rotation.

Minimum qualifications are a high school diploma or equivalent. Valid Ohio Driver's License and Class "A" Commercial Driver's License. Successful completion of lineworker apprenticeship program with four years of experience as an apprentice lineman. Journeyman Lineworker Certification.

Hourly Salary Range: \$23.36 - \$29.20/hour D.O.Q. Applications are available at www.cityofoberlin.com and at Oberlin City Hall, 85 S. Main St., Oberlin, OH 44074. Applications should be returned via email to hr@cityofoberlin.com or mailed to: City of Oberlin Human Resources Department, Oberlin City Hall, 85 S. Main Street, Oberlin, Ohio 44074. Closing date is April 28, 2014 at 4:30 p.m.

The City of Oberlin is a Drug-Free Workplace and an Equal Employment Opportunity employer.

Danville seeks utilities director

The City of Danville (43,000) seeks an energetic, proactive, creative leader to manage Danville Utilities, a municipal provider of electric, gas, water, wastewater, and telecommunications services in a 500-square mile territory. Appointed by and reporting directly to the city manager, the utilities director is responsible for leading a progressive organization that delivers exceptional customer service, operates effectively and efficiently, maintains a world class workforce, contributes to developing Danville's new economy, and meets environmental and community responsibilities.

Danville Utilities serves 42,000 electric meters, 16,000 gas meters, and 18,000 water meters. Its open access fiber optic telecommunications system serves 200 municipal, school, and business locations. Fiber-to-the-neighborhood deployments are now underway. The Utilities Department employs 174 and operates on a \$166 million annual budget. A City Council-appointed Utility Commission provides policy oversight.

Position requires a bachelor's degree in engineering, public administration, business, or related field; masters degree in public or business administration is preferred. Extensive experience in utilities, public works, or local government management is required.

Salary range: \$102,824 - \$120,000 DOQ, plus generous fringe benefits package. Visit our website to apply online www.danville-va.gov Attach cover letter, detailed resume, credentials, and salary history. Position will remain open until filled. City Residency is required. All submissions are confidential. For additional information on Danville Utilities, please visit <http://www.danvilleutilities.com>. Equal Opportunity Employer.

Village of Minster is seeking electrical lineworker

The Village of Minster has an immediate opening for a lineworker in its Electrical Department. A first class or journeyman lineman is the preferred level of knowledge, skill, and ability; however, the village will consider those with some level of training and/or experience in the electrical field.

Successful candidates must have a high school diploma or GED; valid CDL driver's license with a minimum of a Class B endorsement; mechanical knowledge and knowing how to operate equipment such as an aerial bucket truck, digger derrick truck, backhoe, skid loader and power tools, preferred.

The selected candidate must, within six months of notice of employment, reside within 20 minutes driving time distance to the village. The successful candidate, if less experienced, must learn to climb poles, work out of and operate a bucket truck and use other relevant tools and equipment.

Minster offers an attractive wage and comprehensive benefit package as well as a workplace with an emphasis on quality and teamwork. Salary is commensurate with experience.

Applications are available at the Village of Minster Administration Office, 5 W. Fourth St. or online at www.minsteroh.com. Please submit a completed job application and resume by April 27, 2014 to Village Administrator, Village of Minster, P.O. Box 1, 5 W. Fourth St., Minster, Ohio 45865.

Applications and resumes submitted to the village are public records and will be released to members of the public if they are requested. The village will contact the current employer of an applicant only if that applicant is a finalist in the selection process, and will only make such contact after notifying the applicant. EOE/ADA.

Borough of Ephrata seeks electric system superintendent

The Borough of Ephrata is seeking candidates for the position of fulltime Electric System Superintendent.

The electric system superintendent is responsible for directing and managing skilled individuals involved with the operation and maintenance of a public power electrical distribution system. The electric system superintendent will direct the day to day activities, preventative

see CLASSIFIEDS Page 5

maintenance, and multi-year capital projects of the borough's electrical distribution systems in order to provide operations that are safe, cost effective, and reliable. The electric system superintendent will be expected to interact with the customers of the system on a regular basis to ensure safety and sound practices are employed throughout the electrical distribution system.

To be considered for this position, candidates must have at least 10 years of experience in the electric utility industry, a minimum of five years supervisory experience and a proven track record of achieving results. A thorough working knowledge of line work, electric distribution, substations, and high voltage systems (up to 69kv) is essential. A bachelor's degree in electrical engineering or engineering technology, or related field, from an accredited college or university is preferred, however, relevant practical experience in lieu of a bachelor's degree will be considered.

Other requirements include:

- Class B motor vehicle license or ability to obtain within six months
- Must be able to work weekends and holidays
- Ability to respond to a call out within a timely manner (approximately 30 minutes)
- Above average leadership and communications skills
- Computer skills; Excel and Word preferred

The borough offers an attractive wage, comprehensive benefit package and a workplace with an emphasis on quality and teamwork.

Complete an application at the borough or send a resume to: Human Resources Dept, Borough of Ephrata, 124 S. State St., Ephrata, PA 17522 or skramer@ephrataboro.org. Visit the website at <http://ephrataboro.org/>. Application deadline is April 30, 2014. EOE M/F/D/V

Lineworkers needed in Beach City

The Village of Beach City has openings for an experienced Lineworker-Utility Worker and an Apprentice Lineworker in its electric utility.

Successful candidates will meet the following qualifications: high school diploma or GED, two year Trade School, Journeyman Certification, Commercial Driver's License (CDL) with a Class B Endorsement or must be obtained within six months of hire. Employee will be on call 24/7 approximately every other week to respond to outages or problems. Village Lineman-Utility Workers are also expected to perform duties in area such as water, wastewater, tree trimmings, streets and park maintenance. This is an inherently hazardous and physically demanding job.

Candidate must be willing to work in all kinds of weather conditions. Position pay scales: \$19.00 per hour to \$23.00 per hour for a journeyman lineworker and a five year apprenticeship program starting at \$14.95 for the apprentice, both depending on qualifications. Beach City offers a comprehensive benefit package. Applications available at Village of Beach City, 105 E. Main St., Beach City,

Ohio 44608 or via email to: utilities@beachcity.org. Applications will be accepted until 4:30 p.m. April 30, 2014. Beach City is an equal opportunity employer.

Cuyahoga Falls holds open exam

The City of Cuyahoga Falls has given notice that the Cuyahoga Falls Civil Service Commission will administer a written examination for the following position: Police Officer (Open – Competitive Exam) at 6 p.m. May 13 in the Cuyahoga Falls High School Cafeteria, 2300 Fourth St., Cuyahoga Falls, OH 44221. Registration will begin at 5 p.m. A valid driver's license or state issued ID must be presented on the evening of the examination.

For a full description, visit <http://cfo.cityofcf.com/web/departments/human-resources/job-postings>.

Visit www.cityofcf.com to print applications. Applications are also available at the City Building, 2310 Second Street, Cuyahoga Falls, OH 44221 from 8 a.m. to 5 p.m. weekdays.

In order to be eligible to register and take the exam: 1) Completed application, 2) \$25 fee, 3) a copy of DD-214 if applicable, must be submitted to Civil Service Office either in person or by mail, postmarked no later than April 30, 2014.
